

RIFLE FACTORY CRIMP DIES - LEE PRECISION .25-35 WINCHESTER CUSTOM FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

Attributes

- Name: [LEE PRECISION .25-35 WINCHESTER CUSTOM FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430109271
- Mfr. No.: 91235
- Cartridge: 25-35 Winchester
- Die Style: Factory Crimp Die
- Delivery weight: 0.136kg
- Shipping height: 38mm
- Shipping width: 38mm
- Shipping length: 121mm

Safety Instruction Guide for RIFLE FACTORY CRIMP DIES LEE PRECISION .2535 WINCHESTER CUSTOM FACTORY CRIMP DIE

Introduction

Thank you for choosing the Lee Factory Crimp Die for your reloading needs. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before use to understand the potential hazards and how to avoid them.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a secure location, out of reach of children and pets.
- Regularly inspect the die for signs of wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Always verify that the die is compatible with your specific reloading press (7/8"14).
- Do not attempt to modify the die or use it for purposes other than crimping bullets.
- Avoid overtightening the die in the press, as this may cause damage or malfunction.
- Ensure that the shellholder is securely in place before crimping.
- Use only the recommended cartridges (2535 Winchester) to prevent accidents.
- Never exceed the recommended load specifications for the cartridges being used.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged.
- Insert the Lee Factory Crimp Die into the reloading press and tighten it securely.
- Attach the appropriate shellholder for the 2535 Winchester cartridge.

2. Usage:

- Prepare your cartridge cases by resizing and cleaning them as necessary.
- Place the bullet into the case mouth, ensuring proper alignment.
- Raise the ram of the reloading press to bring the case into contact with the die.
- Gradually apply pressure to crimp the bullet firmly into place using the collet mechanism.
- Lower the ram and remove the completed cartridge.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local waste management regulations.
- Do not throw the die in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Lee Factory Crimp Die, please refer to the manufacturer's contact information provided on the product packaging or visit their official website.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Lee Factory Crimp Die. Always prioritize safety and adhere to best practices to protect yourself and others while reloading ammunition. Thank you for choosing Lee Precision.
