

# INTELLIFIRE"! TRIGGER FOR SIG SAUER® P365 - TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 BLACK W/BLACK BLADES

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

Introducing the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365. What could be better than a SIG SAUER P365? How about a P365 with the Tyrant CNC IntelliFire™ dual safety blade action trigger, with a solid 90 degree break AND 30% less pre-travel/take up! The SIG SAUER P365 has made waves in the concealed carry world, revered for its compact size and powerful punch. Whether you're a seasoned professional or an everyday carrier, reliability is key. The Tyrant CNC IntelliFire™ Trigger System, specifically tailored for the P365, pushes the boundaries of what you can expect from aftermarket trigger enhancements. In the realm of firearm customization, the trigger plays a pivotal role, influencing both the firearm's performance and the safety of its operator. Although a capable and favored handgun, the Sig P365 lacks the traditionally-used safety feature; the trigger safety. Tyrant CNC, fully recognizing the importance and demand for additional safety features, crafted the IntelliFire™ Trigger System with aerospace-like precision, ensuring it integrates seamlessly with the SIG SAUER P365. Crafted for Durability and Precision Built to withstand the daily rigors of use and ensure peak performance, the trigger boasts a robust 12L14 steel body. Lightweight 6061 aluminum safety blades further accentuate its durability and precision. A Stainless steel and heat-treated internal spring ensures reliability of use that will outlive the firearms duty cycle. Safety First: A Dual Safety Blade System Safety in firearms is non-negotiable. The standout feature of this trigger is its patent-pending dual safety blade system. The OEM Grip module of the P365 offers only a narrow window of clearance, making traditional safety blade designs impossible to function. This is where the genius of Tyrant CNC shines. Through innovative geometry and a specialized spring, the IntelliFire™ safety blade system utilizes a 3:1 lever ratio in order to clear the grip module when activated. However, if the front blade remains undepressed, the rear blade will directly impact the 365 Grip Module preventing the firing pin from dropping and enhancing safety. Reduced Pre-Travel & Hybrid Ergonomics The trigger facilitates a 30% reduction in pre-travel, ensuring a smoother and quicker shooting experience without compromising on safety. Further enhancing the user experience, Tyrant CNC incorporates its signature hybrid trigger ergonomics, featuring a flat face with a subtle bottom curve - the ideal blend for optimal performance. Experience a consistent break at the 90 degree angle, making your initial AND follow up shots the closest groupings you can have. With the Tyrant CNC IntelliFire™ Trigger System, you're investing in unmatched engineering and an unwavering focus on safety. Elevate your confidence in daily or concealed carry, especially for those favoring appendix carry, and arm your SIG SAUER P365 with cutting-edge trigger technology.

FEATURES Platform: Sig-Sauer Designed For Models: P365 Fitment Notes Works with standard SIG SAUER P365 variants Drop in replacement Works with Aftermarket Grip Modules \*May not be compatible with California Compliant P365 models with manual magazine disconnect feature installed\* First ever trigger safety system for SIG P365, patent-pending technology 30% reduced trigger pre-travel (maximum that can be done without disengaging SIG internal safety) 90 degree break for maximum consistency on initial AND follow-up shots Stainless steel trigger body, aluminum safety blades

## Attributes

- Name: [TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 BLACK W/BLACK BLADES](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430109508
- Mfr. No.: TD-P365-TRIG-BLACK-BLACK
- Finish: Black
- Model: P365
- Style: Replacement,Drop-In
- Weapon type: Sig Sauer
- Delivery weight: 0.018kg
- Shipping height: 102mm
- Shipping width: 6mm
- Shipping length: 114mm
- UPC: 612789319237

## Item details

Made in USA

US export classification: 0A501.c

# Consumer Safety Instruction Guide for the INTELLIFIRE™ Trigger for SIG SAUER® P365

## Introduction

Thank you for choosing the Tyrant CNC IntelliFire™ Trigger System for your SIG SAUER P365. This instruction guide provides essential safety information and guidelines to ensure safe and effective use of the product. Please read this guide carefully before installation and use.

## General Safety Guidelines

To ensure your safety and the safety of others, please adhere to the following general safety guidelines:

- Always treat firearms as if they are loaded.
- Keep the firearm pointed in a safe direction at all times.
- Ensure that the trigger system is installed correctly and securely before use.
- Regularly inspect the trigger system for any signs of wear or damage.
- Store the firearm and trigger system in a secure location, away from children and unauthorized users.
- Follow all local laws and regulations regarding firearm ownership and modifications.

## Specific Safety Precautions for Use

When using the IntelliFire™ Trigger System, please observe the following safety precautions:

- Ensure that the grip module is free from obstructions before activation of the trigger.
- Do not use the trigger system if any components appear damaged or malfunctioning.
- Always perform a function check after installation to ensure proper operation.
- Avoid using the trigger in wet or humid conditions to prevent corrosion.
- Be aware of your surroundings and ensure a clear shooting area before firing.

## Instructions for Installation and Usage

To ensure proper installation and usage of the IntelliFire™ Trigger System, follow these instructions:

### Installation Instructions

#### 1. Preparation:

- Ensure that your firearm is unloaded and safe to handle.
- Gather the necessary tools for installation, including a screwdriver and any other required tools specified in the product manual.

#### 2. Remove the Existing Trigger:

- Carefully disassemble the firearm according to the manufacturer's instructions.
- Remove the existing trigger system from the firearm.

#### 3. Install the IntelliFire™ Trigger:

- Align the new trigger system with the trigger housing.
- Securely fasten the trigger in place, ensuring it is properly seated.

#### 4. Reassemble the Firearm:

- Follow the manufacturer's instructions to reassemble the firearm.
- Ensure that all components are securely in place.

## 5. Function Check:

- Perform a function check to confirm that the trigger operates correctly. This includes checking the dual safety blade system to ensure it functions as intended.

## Usage Instructions

- Always follow safe firearm handling practices when using your SIG SAUER P365 with the IntelliFire™ Trigger System.
- Familiarize yourself with the trigger's operation before using the firearm in a livefire situation.
- Practice dry firing in a safe environment to become accustomed to the trigger's feel and response.

## Disposal Instructions

When disposing of the IntelliFire™ Trigger System or any associated components:

- Follow local regulations regarding the disposal of firearm components.
- If the trigger system is damaged or no longer in use, consider contacting a local firearms dealer for proper disposal methods.
- Never dispose of firearm components in regular household waste.

## Contact Information for Further Support

For any inquiries regarding safety or product support, please contact the manufacturer or authorized dealer. Always ensure you are using the latest information and guidelines regarding safety and product usage.

Thank you for prioritizing safety and ensuring responsible use of your Tyrant CNC IntelliFire™ Trigger System. Enjoy your enhanced shooting experience with the SIG SAUER P365.
