Introducing the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365. What could be better than a SIG SAUER P365? How about a P365 with the Tyrant CNC IntelliFire™ dual safety blade action trigger, with a solid 90 degree break AND 30% less pre-travel/take up! The SIG SAUER P365 has made waves in the concealed carry world, revered for its compact size and powerful punch. Whether you're a seasoned professional or an everyday carrier, reliability is key. The Tyrant CNC IntelliFire™ Trigger System, specifically tailored for the P365, pushes the boundaries of what you can expect from aftermarket trigger enhancements. In the realm of firearm customization, the trigger plays a pivotal role, influencing both the firearm's performance and the safety of its operator. Although a capable and favored handgun, the Sig P365 lacks the traditionally-used safety feature; the trigger safety. Tyrant CNC, fully recognizing the importance and demand for additional safety features, crafted the IntelliFire™ Trigger System with aerospace-like precision, ensuring it integrates seamlessly with the SIG SAUER P365. Crafted for Durability and Precision Built to withstand the daily rigors of use and ensure peak performance, the trigger boasts a robust 12L14 steel body. Lightweight 6061 aluminum safety blades further accentuate its durability and precision. A Stainless steel and heat-treated internal spring ensures reliability of use that will outlive the firearms duty cycle. Safety First: A Dual Safety Blade System Safety in firearms is non-negotiable. The standout feature of this trigger is its patent-pending dual safety blade system. The OEM Grip module of the P365 offers only a narrow window of clearance, making traditional safety blade designs impossible to function. This is where the genius of Tyrant CNC shines. Through innovative geometry and a specialized spring, the IntelliFire™ safety blade system utilizes a 3:1 lever ratio in order to clear the grip module when activated. However, if the front blade remains undepressed, the rear blade will directly impact the 365 Grip Module preventing the firing pin from dropping and enhancing safety. Reduced Pre-Travel & Hybrid Ergonomics The trigger facilitates a 30% reduction in pre-travel, ensuring a smoother and quicker shooting experience without compromising on safety. Further enhancing the user experience, Tyrant CNC incorporates its signature hybrid trigger ergonomics, featuring a flat face with a subtle bottom curve – the ideal blend for optimal performance. Experience a consistent break at the 90 degree angle, making your initial AND follow up shots the closest groupings you can have. With the Tyrant CNC IntelliFire™ Trigger System, you're investing in unmatched engineering and an unwavering focus on safety. Elevate your confidence in daily or concealed carry, especially for those favoring appendix carry, and arm your SIG SAUER P365 with cutting-edge trigger technology.

FEATURES Platform: Sig-Sauer Designed For Models: P365 Fitment Notes Works with standard SIG SAUER P365 variants Drop in replacement Works with Aftermarket Grip Modules *May not be compatible with California Compliant P365 models with manual magazine disconnect feature installed* First ever trigger safety system for SIG P365, patent-pending technology 30% reduced trigger pre-travel (maximum that can be done without disengaging SIG internal safety) 90 degree break for maximum consistency on initial AND follow-up shots Stainless steel trigger body, aluminum safety blades

Attributes

- Name: [TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 GOLD W/GOLD BLADES](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430109512

Safety Instruction Guide for Tyrant CNC IntelliFire Trigger System for SIG SAUER P365

Introduction

Thank you for choosing the Tyrant CNC IntelliFire Trigger System for your SIG SAUER P365. This safety instruction guide is designed to ensure the safe and effective use of your product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure the area is safe and secure before handling your firearm.
- Keep the trigger system away from children and unauthorized users.
- Regularly inspect the trigger system for wear or damage.
- Follow all local laws and regulations regarding firearm modifications.
- If you experience any issues with the trigger system, cease use immediately and seek professional assistance.

Specific Safety Precautions for Use

- **Dual Safety Blade System:**
 - Ensure both safety blades are functioning correctly before use. This system is designed to prevent accidental discharge.
- **PreTravel Reduction:**
 - The 30% reduction in pretravel may affect your shooting technique. Practice in a safe environment to adjust to the new trigger feel.
- **Installation:**
 - Only install the trigger system in compatible SIG SAUER P365 models. Verify compatibility before proceeding.
- **Environmental Considerations:**
 - Avoid using the trigger system in extreme weather conditions. Moisture and dirt can affect performance.
- **Regular Maintenance:**
 - Clean and lubricate the trigger system regularly to ensure optimal performance and longevity.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Make sure your firearm is unloaded and pointed in a safe direction.
2. **Disassemble the Firearm:** Follow the manufacturer's instructions to disassemble your SIG SAUER P365.
3. **Remove the Existing Trigger:** Carefully remove the existing trigger system from the firearm.
4. **Install the IntelliFire Trigger:**
 - Align the Tyrant CNC IntelliFire Trigger with the trigger housing.

- Ensure that the dual safety blades are properly positioned.
- 5. **Reassemble the Firearm:** Follow the manufacturer's instructions to reassemble your SIG SAUER P365.
- 6. **Function Check:** Perform a function check to ensure the trigger system operates correctly.

Usage

- Practice shooting in a safe environment to familiarize yourself with the new trigger system.
- Always follow safe shooting practices and guidelines.
- Regularly check the trigger system for any signs of wear or malfunction.

Disposal Instructions

- Dispose of the trigger system in accordance with local regulations.
- Do not dispose of the trigger system in regular household waste.
- Contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries or support regarding the Tyrant CNC IntelliFire Trigger System, please reach out to the designated customer service channels provided with your purchase.

Conclusion

The Tyrant CNC IntelliFire Trigger System for SIG SAUER P365 is designed with safety and performance in mind. By following this safety instruction guide, you can ensure a safe and enjoyable shooting experience. Always prioritize safety and responsible firearm handling. Thank you for your commitment to safety.
