Tyrant CNC SIG SAUER P365 Takedown Lever: Precision Engineering for Superior Performance In the vast landscape of firearm components, the takedown lever often doesn't receive the attention it truly deserves. However, it's an integral element in maintaining and enhancing the performance of their weapon. At Tyrant CNC, they understand this significance and have poured their engineering expertise into creating the best SIG SAUER P365 takedown lever on the market today. Material Excellence: Every Tyrant CNC SIG SAUER P365 Takedown Lever starts its journey as a Metal Injection Molded (MIM) component out of 17-4 stainless steel. This specific choice of material isn't coincidental. 17-4 stainless steel is renowned for its high strength and excellent corrosion resistance properties. These characteristics ensure that the takedown lever doesn't just look good but stands the test of time. Once molded, each lever undergoes a meticulous bead blasting process. This procedure provides it with a uniform matte finish, reducing any superficial imperfections and preparing it for its next phase: PVD coating. PVD (Physical Vapor Deposition) coating doesn't just add to the aesthetic appeal; it imparts additional resistance to wear, oxidation, and even corrosion. This layer, combined with the innate durability of 17-4 stainless steel, results in a takedown lever that promises longevity and consistent performance. Design Superiority: While material choice lays the foundation, design refinement brings their takedown lever to unparalleled heights. It has been expertly crafted to function perfectly with OEM components, ensuring compatibility with what you might already own. Yet, its performance reaches its zenith when paired with their very own Extended Slide Release. The synergy between these two products is the epitome of precision engineering. Furthermore, compatibility isn't limited. This takedown lever seamlessly integrates with all SIG P365 variants. Whether you own the original P365, the P365 XL, P365 X-MACRO or any other variant, rest assured, this component will be the perfect fit. Understanding the real-world challenges faced by firearm enthusiasts, the extended surface area and added serrations on their takedown lever have been specifically incorporated to offer enhanced grip levels under all conditions. Whether you're out on a rainy day at the range or find themselves in high-pressure situations, the grip on their takedown lever will not falter. Why Choose Tyrant CNC's Takedown Lever? Selecting the best P365 takedown lever can transform their firearm experience. With the Tyrant CNC SIG SAUER P365 Takedown Lever, you are not just choosing a component; you're investing in an assurance of quality, durability, and unparalleled performance. This isn't just another 365 takedown lever; it's the best and highest performing takedown lever for the P365. With Tyrant CNC, elevate their SIG SAUER P365's potential. Make the right choice today. FEATURES Platform: Sig-Sauer Designed For Models: P365 Fitment Notes P365 Tac Ops Compatible When Combining With OEM or Tyrant Slide Release. Fits on California compliant versions

Attributes

- Name: [TYRANT CNC TAKE DOWN LEVER FOR SIG SAUER P365 BLACK](#)
- Manufacturer: [TYRANT CNC](#)

- Product no.: 430109521
- Mfr. No.: TD-P365TDL-BLK
- Caliber: 9 mm Luger
- Finish: Black
- Model: P365
- Weapon type: Sig Sauer
- Delivery weight: 0.181kg
- Shipping height: 25mm
- Shipping width: 121mm
- Shipping length: 102mm
- UPC: 764046030505

Safety Instruction Guide for the TAKE DOWN LEVER FOR SIG SAUER® P365

Introduction

Thank you for choosing the Tyrant CNC Takedown Lever for your SIG SAUER P365. This product is designed to enhance the performance and usability of your firearm. This safety instruction guide provides essential information to ensure safe use, installation, and disposal of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you are familiar with all local laws and regulations regarding firearm modifications and accessories.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Keep the takedown lever out of reach of children and unauthorized users.
- Regularly inspect the takedown lever for signs of wear or damage before each use.
- Do not use the takedown lever if it appears damaged or does not fit properly.
- Report any unsafe product incidents or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- When installing or removing the takedown lever, ensure that the firearm is unloaded and pointed in a safe direction.
- Avoid using excessive force during installation to prevent damage to the lever or firearm.
- Be cautious of sharp edges during installation and handling to prevent cuts or injuries.
- Ensure that the takedown lever is compatible with your specific SIG SAUER P365 model.
- If experiencing difficulty during installation, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and in a safe condition.
- Gather necessary tools for installation (if applicable).

2. Installation Steps

- Remove the existing takedown lever from your SIG SAUER P365 by following the manufacturer's instructions.
- Align the Tyrant CNC Takedown Lever with the designated slot on the firearm.
- Gently press the lever into place, ensuring it fits snugly without excessive force.
- Verify that the lever moves smoothly and is securely installed.

3. Usage Instructions

- When using the takedown lever, ensure proper grip and control of the firearm.
- Practice safe handling techniques at all times, especially when disassembling or reassembling the firearm.
- Regularly check the functionality of the takedown lever during routine maintenance.

Disposal Instructions

- Dispose of the takedown lever in accordance with local regulations for metal waste.
- If the product is damaged beyond use, ensure it is disposed of in a manner that prevents injury to others.
- Recycle materials whenever possible, following local recycling guidelines.

Contact Information for Further Support

For any inquiries or support related to the Tyrant CNC Takedown Lever, please refer to the contact information provided in the product packaging or visit the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Tyrant CNC Takedown Lever for the SIG SAUER P365. Thank you for prioritizing safety and quality in your firearm accessories.
