Tyrant CNC SIG SAUER P365 Takedown Lever: Precision Engineering for Superior Performance In the vast landscape of firearm components, the takedown lever often doesn't receive the attention it truly deserves. However, it's an integral element in maintaining and enhancing the performance of their weapon. At Tyrant CNC, they understand this significance and have poured their engineering expertise into creating the best SIG SAUER P365 takedown lever on the market today. Material Excellence: Every Tyrant CNC SIG SAUER P365 Takedown Lever starts its journey as a Metal Injection Molded (MIM) component out of 17-4 stainless steel. This specific choice of material isn't coincidental. 17-4 stainless steel is renowned for its high strength and excellent corrosion resistance properties. These characteristics ensure that the takedown lever doesn't just look good but stands the test of time. Once molded, each lever undergoes a meticulous bead blasting process. This procedure provides it with a uniform matte finish, reducing any superficial imperfections and preparing it for its next phase: PVD coating. PVD (Physical Vapor Deposition) coating doesn't just add to the aesthetic appeal; it imparts additional resistance to wear, oxidation, and even corrosion. This layer, combined with the innate durability of 17-4 stainless steel, results in a takedown lever that promises longevity and consistent performance. Design Superiority: While material choice lays the foundation, design refinement brings their takedown lever to unparalleled heights. It has been expertly crafted to function perfectly with OEM components, ensuring compatibility with what you might already own. Yet, its performance reaches its zenith when paired with their very own Extended Slide Release. The synergy between these two products is the epitome of precision engineering. Furthermore, compatibility isn't limited. This takedown lever seamlessly integrates with all SIG P365 variants. Whether you own the original P365, the P365 XL, P365 X-MACRO or any other variant, rest assured, this component will be the perfect fit. Understanding the real-world challenges faced by firearm enthusiasts, the extended surface area and added serrations on their takedown lever have been specifically incorporated to offer enhanced grip levels under all conditions. Whether you're out on a rainy day at the range or find themselves in high-pressure situations, the grip on their takedown lever will not falter. Why Choose Tyrant CNC's Takedown Lever? Selecting the best P365 takedown lever can transform their firearm experience. With the Tyrant CNC SIG SAUER P365 Takedown Lever, you are not just choosing a component; you're investing in an assurance of quality, durability, and unparalleled performance. This isn't just another 365 takedown lever; it's the best and highest performing takedown lever for the P365. With Tyrant CNC, elevate their SIG SAUER P365's potential. Make the right choice today. FEATURES Platform: Sig-Sauer Designed For Models: P365 Fitment Notes P365 Tac Ops Compatible When Combining With OEM or Tyrant Slide Release. Fits on California compliant versions

Attributes

- Name: [TYRANT CNC TAKE DOWN LEVER FOR SIG SAUER P365 GOLD](#)
- Manufacturer: [TYRANT CNC](#)

- Product no.: 430109522
- Mfr. No.: TD-P365TDL-GOLD
- Caliber: 9 mm Luger
- Finish: Gold
- Model: P365
- Weapon type: Sig Sauer
- Delivery weight: 0.181kg
- Shipping height: 25mm
- Shipping width: 121mm
- Shipping length: 102mm
- UPC: 764046030543

Safety Instruction Guide for Tyrant CNC Takedown Lever for SIG SAUER P365

Introduction

Thank you for choosing the Tyrant CNC Takedown Lever for your SIG SAUER P365. This guide provides essential safety information, installation instructions, and maintenance tips to ensure the safe and effective use of your product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that you understand how to operate your firearm safely before using this product.
- Always treat your firearm as if it is loaded, even if you believe it is not.
- Keep the takedown lever and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the takedown lever for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding firearm accessories and modifications.

Specific Safety Precautions for Use

- Use only with compatible SIG SAUER P365 models, including P365, P365 XL, and P365 XMACRO.
- Do not attempt to modify or alter the takedown lever; doing so may compromise its safety and performance.
- Ensure that your firearm is unloaded before installing or removing the takedown lever.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Be aware of your surroundings and ensure that you are in a safe environment when using your firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, typically including a punch tool and a hammer.

2. Installation:

- Remove the existing takedown lever from your SIG SAUER P365 by carefully following the manufacturer's instructions.
- Align the Tyrant CNC Takedown Lever with the corresponding slot on the firearm.
- Gently tap the lever into place using the punch tool and hammer, ensuring it is seated securely.

3. Usage:

- To use the takedown lever, simply engage it as per the firearm's operating procedures.
- Ensure a firm grip on the lever when operating to avoid slipping or misalignment.

4. PostInstallation Check:

- After installation, perform a function check to ensure the lever operates smoothly and correctly.
- Confirm that the firearm operates as intended with the new takedown lever installed.

Disposal Instructions

- Dispose of the takedown lever responsibly when it reaches the end of its lifecycle.

- Follow local regulations for the disposal of firearm components and materials.
- Consider recycling options if available.

Contact Information for Further Support

For any inquiries or concerns regarding safety or product performance, please reach out to your authorized dealer or manufacturer. It is essential to have access to support for any questions that may arise during the use of your product.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your Tyrant CNC Takedown Lever for SIG SAUER P365. Always prioritize safety and responsible firearm handling. Thank you for your commitment to safety and quality.
