

SAC NECK SIZING BUSHINGS - SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .250"

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Short Action Customs Universal Neck Sizing bushings are compatible with common neck sizing dies. Universal outside dimensions of 0.500" diameter by 0.375" in height, these bushings can be used in most resizing dies. Short Action Customs neck resizing bushings have minimized neck runout in cartridge brass in nearly every die they have used them in. After attempting to eliminate and reduce neck runout in sized brass using various commercially available neck bushings, they realized that every neck bushing has the same flaw; a straight, undersized hole when compared to the brass. Their new bushings address the inherent flaws with this system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 stainless steel, then processed with the same black nitriding as their Precision Resizing Dies, the SAC Universal Neck bushings have an incredibly smooth inside finish paired with an extremely slick external finish from nitriding and polishing. Compatible with the following Bushing Size Die Brands: RCBS Whidden Harrells Redding Hornady LE Wilson

Attributes

- Name: [SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .250"](#)
- Manufacturer: [SHORT ACTION CUSTOMS, LLC.](#)
- Product no.: 430109872
- Mfr. No.: SAC-250NB
- Diameter (in): .250
- Delivery weight: 0.113kg
- Shipping height: 3mm
- Shipping width: 76mm
- Shipping length: 127mm

SAC Neck Sizing Bushings Safety Instruction Guide

Introduction

Thank you for purchasing the SAC Neck Sizing Bushings from Short Action Customs, LLC. This guide provides essential safety instructions to ensure the proper and safe use of the product. Please read through this guide carefully before using the neck sizing bushings.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling and using the bushings.
- Follow all manufacturer instructions and guidelines for safe use.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the bushings are compatible with the resizing die you are using. Refer to the list of compatible brands: RCBS, Whidden, Harrells, Redding, Hornady, and LE Wilson.
- **Neck Runout:** Be aware that improper use may lead to excessive neck runout. Follow the recommended procedures for sizing to minimize this risk.
- **Material Handling:** The bushings are made from 174 stainless steel. Handle with care to avoid injury from sharp edges.
- **Avoid Overtightening:** Do not overtighten the bushings in the die, as this may cause damage to both the bushing and the die.
- **Temperature Awareness:** The bushings may become hot during use. Allow them to cool before handling.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and organized.
- Gather all necessary tools, including the resizing die and the neck sizing bushings.

2. Installation:

- Select the appropriate bushing size for your application (e.g., .250").
- Insert the bushing into the resizing die according to the manufacturer's instructions.
- Ensure the bushing is seated properly and securely.

3. Usage:

- Place the cartridge brass into the resizing die.
- Operate the resizing die according to the manufacturer's guidelines.
- Monitor the sizing process and check for any irregularities in the brass.

4. PostUsage:

- Remove the bushings from the die after use.

- Clean and inspect the bushings for any signs of wear or damage.
- Store the bushings in a safe and dry location.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste if they are contaminated or hazardous.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the SAC Neck Sizing Bushings, please refer to the manufacturer's contact information included with your product packaging. You can also visit the manufacturer's website for additional resources and support.

By following these guidelines and instructions, you can ensure the safe and effective use of your SAC Neck Sizing Bushings. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
