

# **SAC NECK SIZING BUSHINGS - SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .275"**

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Short Action Customs Universal Neck Sizing bushings are compatible with common neck sizing dies. Universal outside dimensions of 0.500" diameter by 0.375" in height, these bushings can be used in most resizing dies. Short Action Customs neck resizing bushings have minimized neck runout in cartridge brass in nearly every die they have used them in. After attempting to eliminate and reduce neck runout in sized brass using various commercially available neck bushings, they realized that every neck bushing has the same flaw; a straight, undersized hole when compared to the brass. Their new bushings address the inherent flaws with this system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 stainless steel, then processed with the same black nitriding as their Precision Resizing Dies, the SAC Universal Neck bushings have an incredibly smooth inside finish paired with an extremely slick external finish from nitriding and polishing. Compatible with the following Bushing Size Die Brands: RCBS Whidden Harrells Redding Hornady LE Wilson

## **Attributes**

- Name: [SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .275"](#)
- Manufacturer: [SHORT ACTION CUSTOMS, LLC.](#)
- Product no.: 430109895
- Mfr. No.: SAC-275NB
- Diameter (in): .275
- Delivery weight: 0.113kg
- Shipping height: 3mm
- Shipping width: 76mm
- Shipping length: 127mm

# Safety Instruction Guide for SAC Neck Sizing Bushings

## Introduction

Thank you for choosing the SAC Neck Sizing Bushings from Short Action Customs, LLC. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is resizing cartridge brass.
- Always wear appropriate safety gear, including eye protection, when using resizing dies and bushings.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Regularly inspect the bushings for signs of wear or damage before each use.
- If you notice any defects or unusual performance, discontinue use immediately and consult a professional.

## Specific Safety Precautions for Use

- Handle the bushings with care to prevent dropping or damaging them.
- Ensure that the resizing die is securely fastened in your reloading press before use.
- Do not force the bushing into the die; it should fit smoothly without excessive pressure.
- Always follow the manufacturer's instructions for your specific resizing die to ensure compatibility and safety.
- Avoid using the bushings with brass that has been previously resized with different bushings, as this may lead to inconsistencies in neck sizing.
- Store the bushings in a cool, dry place to prevent corrosion and maintain their quality.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the resizing die, reloading press, and the SAC Neck Sizing Bushing.
- Ensure your workspace is clean and free of clutter.

### 2. Installation:

- Remove any existing bushing from the resizing die.
- Carefully insert the SAC Neck Sizing Bushing into the die, ensuring it is seated properly.
- Tighten the die according to the manufacturer's specifications to secure the bushing in place.

### 3. Usage:

- Place the cartridge brass into the reloading press.
- Activate the press to resize the brass using the bushing.
- Monitor the process to ensure smooth operation and prevent any binding or jamming.
- After resizing, inspect the brass for proper neck sizing and concentricity.

### 4. PostUsage:

- Clean the bushings after use to remove any debris or residue.

- Store the bushings in their original packaging or a designated storage container to prevent damage.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are made from materials that can be recycled.
- Check with local recycling centers for proper disposal methods for stainless steel products.

## Contact Information for Further Support

For any questions or concerns regarding the use of SAC Neck Sizing Bushings, or to report any safety issues, please reach out to the designated contact point provided by the manufacturer. Ensure you have the product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with SAC Neck Sizing Bushings!
