

# SAC NECK SIZING BUSHINGS - SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .363"

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Short Action Customs Universal Neck Sizing bushings are compatible with common neck sizing dies. Universal outside dimensions of 0.500" diameter by 0.375" in height, these bushings can be used in most resizing dies. Short Action Customs neck resizing bushings have minimized neck runout in cartridge brass in nearly every die they have used them in. After attempting to eliminate and reduce neck runout in sized brass using various commercially available neck bushings, they realized that every neck bushing has the same flaw; a straight, undersized hole when compared to the brass. Their new bushings address the inherent flaws with this system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 stainless steel, then processed with the same black nitriding as their Precision Resizing Dies, the SAC Universal Neck bushings have an incredibly smooth inside finish paired with an extremely slick external finish from nitriding and polishing. Compatible with the following Bushing Size Die Brands: RCBS Whidden Harrells Redding Hornady LE Wilson

## Attributes

- Name: [SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .363"](#)
- Manufacturer: [SHORT ACTION CUSTOMS, LLC.](#)
- Product no.: 430109958
- Mfr. No.: SAC-363NB
- Diameter (in): .363
- Delivery weight: 0.113kg
- Shipping height: 3mm
- Shipping width: 76mm
- Shipping length: 127mm

# Safety Instruction Guide for SAC Neck Sizing Bushings

## Introduction

Thank you for choosing the SAC Neck Sizing Bushings from Short Action Customs, LLC. These bushings are designed to enhance the neck sizing process for cartridge brass, ensuring improved concentricity and reduced neck runout. This guide provides important safety instructions and guidelines for the proper use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Regularly inspect the bushings for any signs of wear or damage before use.
- If any defects are found, discontinue use immediately and contact the manufacturer.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Follow safe handling practices for all reloading components and tools.

## Specific Safety Precautions for Use

- Avoid using the bushings with any resizing die that is not compatible with their specifications.
- Do not exceed the recommended dimensions or specifications provided for the bushings.
- Ensure that the bushing is properly seated within the resizing die before beginning the resizing process.
- Use only recommended lubricants to prevent brass from sticking to the bushings.
- If you experience any unusual resistance during resizing, stop immediately and check for obstructions or misalignment.
- Store the bushings in a cool, dry place to prevent corrosion and maintain their performance.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and components, including the resizing die and the SAC Neck Sizing Bushing.
- Ensure your workspace is clean and organized to prevent accidents.

### 2. Installation of the Bushing:

- Remove the resizing die from the press.
- Insert the SAC Neck Sizing Bushing into the die, ensuring it is fully seated.
- Reattach the resizing die to the press securely.

### 3. Resizing Process:

- Prepare your brass cases by cleaning them thoroughly.
- Apply a suitable lubricant to the cases to minimize friction.
- Insert the brass case into the resizing die with the bushing.
- Slowly operate the press to resize the brass case.
- After resizing, remove the brass case and inspect it for proper sizing.

### 4. PostUse Care:

- Clean the bushing after each use to remove any brass residue or lubricant.
- Store the bushing in its designated container to protect it from damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations for metal waste.
- Do not dispose of the bushings in regular household waste.
- If you are unsure about disposal methods, consult local waste management authorities for guidance.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the contact information provided by the manufacturer. It is important to reach out for assistance if you encounter any issues or have concerns about the product.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your SAC Neck Sizing Bushings. Always prioritize safety and compliance with local regulations during your reloading activities. Thank you for choosing Short Action Customs, LLC.
