

# **SAC NECK SIZING BUSHINGS - SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .365"**

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Short Action Customs Universal Neck Sizing bushings are compatible with common neck sizing dies. Universal outside dimensions of 0.500" diameter by 0.375" in height, these bushings can be used in most resizing dies. Short Action Customs neck resizing bushings have minimized neck runout in cartridge brass in nearly every die they have used them in. After attempting to eliminate and reduce neck runout in sized brass using various commercially available neck bushings, they realized that every neck bushing has the same flaw; a straight, undersized hole when compared to the brass. Their new bushings address the inherent flaws with this system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 stainless steel, then processed with the same black nitriding as their Precision Resizing Dies, the SAC Universal Neck bushings have an incredibly smooth inside finish paired with an extremely slick external finish from nitriding and polishing. Compatible with the following Bushing Size Die Brands: RCBS Whidden Harrells Redding Hornady LE Wilson

## **Attributes**

- Name: [SHORT ACTION CUSTOMS, LLC. SAC NECK SIZING BUSHING .365"](#)
- Manufacturer: [SHORT ACTION CUSTOMS, LLC.](#)
- Product no.: 430109960
- Mfr. No.: SAC-365NB
- Diameter (in): .365
- Delivery weight: 0.113kg
- Shipping height: 3mm
- Shipping width: 76mm
- Shipping length: 127mm

# Safety Instruction Guide for SAC Neck Sizing Bushings

## Introduction

Thank you for choosing the SAC Neck Sizing Bushings from Short Action Customs, LLC. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings to avoid potential hazards and ensure optimal performance.

## General Safety Guidelines

- Ensure that you are familiar with the operation of neck sizing dies before using the bushings.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling and using the bushings.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidents.
- Inspect the bushings for any damage before each use. Do not use damaged bushings.
- Follow all manufacturer instructions and guidelines for the use of resizing dies and bushings.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use only with compatible resizing dies from the following brands: RCBS, Whidden, Harrells, Redding, Hornady, and LE Wilson.
- Ensure that the bushing size matches the specifications of your resizing die. The SAC Neck Sizing Bushing is .365" in diameter.
- Do not exceed the recommended operating pressures when resizing brass to avoid damaging the bushings and dies.
- Avoid using excessive force when resizing brass. This can lead to deformation of the bushings.
- Store the bushings in a dry and safe location to prevent rust and damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including your resizing die, brass cases, and the SAC Neck Sizing Bushing.
- Ensure your workspace is clean and free from obstructions.

### 2. Installation:

- Remove the resizing die from the press.
- Insert the SAC Neck Sizing Bushing into the resizing die according to the manufacturer's instructions.
- Secure the bushing in place to prevent movement during operation.

### 3. Usage:

- Reattach the resizing die to the press.
- Adjust the die to the desired setting for neck sizing.
- Insert the brass case into the die and lower the ram to begin resizing.
- Apply steady and even pressure to resize the brass without forcing it.
- After resizing, remove the brass case and inspect it for proper sizing and any signs of damage.

#### 4. PostUsage:

- Clean the bushings after use to remove any brass residue and prevent corrosion.
- Store the bushings in their original packaging or a safe container.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not dispose of bushings in regular household waste if they are considered hazardous.
- If you are unsure about the disposal process, consult local authorities for guidance.

## Contact Information for Further Support

For inquiries regarding safety or product performance, please refer to the manufacturer's contact information provided with your product packaging or on the official website.

Thank you for prioritizing safety while using the SAC Neck Sizing Bushings. Your attention to these guidelines will help ensure a safe and effective reloading experience.
