

MODULAR ACTION WRENCH HEADS - SHORT ACTION CUSTOMS MODEL 6 WRENCH HEAD - HOWA 1500

[Gunsmith Tools](#) > [Rifle Tools](#) > [Wrenches](#)

MODULAR ACTION WRENCH HEADS **DO NOT use SAC action wrench head without proper SAC bumpers. Bumpers are only available with the Modular Action Wrench Kit** The SAC Modular Action Wrench Heads are designed to precisely fit your action to ensure proper torque and to protect your action from any damage. Made from 4140 Alloy Steel and heat treated to HRC 32 with a black nitride finish. With a low cost, the action wrench heads are quick and tool-less allowing the end user to have one tool that can work on most actions, without compromise. Actions that do not utilize a counterbore on the barrel face will come with a short front bumper to properly locate it in the action. Simply select the appropriate model number for the action you wish to use. If you do not see your action listed, please contact SAC, they are always developing new action wrench heads and some actions may work with certain models. We will update the list. *** Indicates Right Hand Configuration Only

Safety Instruction Guide for MODULAR ACTION WRENCH HEADS SHORT ACTION CUSTOMS MODEL 6 WRENCH HEAD HOWA 1500

Introduction

Thank you for choosing the MODULAR ACTION WRENCH HEADS SHORT ACTION CUSTOMS MODEL 6 WRENCH HEAD for your firearm maintenance needs. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this document thoroughly before using the wrench head.

General Safety Guidelines

- Always ensure that the wrench head is compatible with your specific action model before use.
- Use the wrench head only with the proper SAC bumpers to prevent damage to your action.
- Keep the wrench head and bumpers out of reach of children and pets.
- Regularly inspect the wrench head for any signs of wear or damage before each use.
- If any component is damaged or not functioning correctly, discontinue use immediately and contact the manufacturer.
- Follow all local laws and regulations regarding firearm maintenance and modifications.

Specific Safety Precautions for Use

- **Compatibility Check:** Ensure that you are using the correct model number for your action. Refer to the model specifications provided.
- **Proper Installation:** Always install the wrench head securely onto the action. Loose fittings can lead to accidents.
- **Torque Application:** Apply torque gradually and evenly to avoid stripping screws or damaging components.
- **Use of Bumpers:** Only use the wrench head with the designated bumpers. Using it without bumpers can lead to misalignment and potential damage.
- **Ejector Removal:** For actions that require it, ensure that the ejector is removed before using the wrench head to avoid injury or damage.
- **Work Environment:** Perform all work in a welllit and organized area to minimize distractions and risks.

Instructions for Installation and Usage

1. **Select the Correct Model:** Identify the appropriate model number for your action from the following list:
 - Model 1: Remington 700 actions, Defiance Deviant/Ruckus/Rebel actions (Does not fit Defiance Elite), Impact 737 actions, Bergara B14, Lone Peak Fuzion.
 - Model 2: Winchester M70, FN SPR actions, Springfield 1903.
 - Model 3: American Rifle Company Mausingfield actions.
 - Model 4: BAT Machine TR and similar actions.
 - Model 5: Tikka T3 actions.
 - Model 6: Howa 1500 actions, Borden actions, Kelbly's actions, and Savage® Actions.
 - Model 7: Bighorn TL, SR, and Origin actions (ejector must be removed), Gunwerks GLR Left and Right, Savage Small Shank.
 - Model 8: American Rifle Company Nucleus/Archimedes actions.
 - Model 9: Curtis Custom actions only (will not work with Terminus actions).
 - Model 10: Defiance Elite, Pierce actions, Tuebor Raider.

- Model 11: Defiance .750" diameter bolts, Surgeon XL.
 - Model 12: Sako A7.
 - Model 13: Surgeon 591.
 - Model 14: Terminus actions (will work with Curtis Customs).
 - Model 15: Sako TRG actions.
 - Model 20: McMillan TAC50 actions.
2. **Attach the Wrench Head:** Align the wrench head with the action and securely attach it, ensuring it fits tightly.
 3. **Install Bumpers:** If required, install the appropriate bumpers to ensure proper alignment and protection.
 4. **Apply Torque:** Use the wrench head to apply torque as needed, ensuring even pressure is applied throughout the process.
 5. **Inspect After Use:** After completing the work, inspect the wrench head and action for any signs of wear or damage.

Disposal Instructions

- Dispose of the wrench head and any associated components responsibly.
- Follow local regulations for the disposal of metal components.
- Do not dispose of the wrench head in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product information, please reach out to your local distributor or the manufacturer. Ensure you have the product model and any relevant details ready for assistance.

Thank you for your attention to these safety instructions. Your safety and the proper functioning of your equipment are our top priorities.
