

THE QUAKE CLAW 2.0 TREESTAND CARRY STRAPS - CLAW TREESTAND CARRY STRAPS CAMO

THE QUAKE CLAW 2.0 TREESTAND CARRY STRAPS The Quake CLAW 2.0 Treestand Carry Straps are the answer to the continuous transport struggle for tree stand hunters. Fitting most stands on the market, the adjustable straps allow easy on and off from your shoulders, a common complaint heard about other backpack straps sold with treestands. The nonslip, durable straps offer a comfortable carrying solution to an otherwise tedious task and will not hold water like foam pads. The CLAW Treestand Carry Straps are compact, lightweight and resistant to odor absorption.

THE QUAKE CLAW 2.0 Treestand Carry Straps

Safety Instructions

Introduction

Thank you for choosing THE QUAKE CLAW 2.0 Treestand Carry Straps. These straps are designed to provide a comfortable and secure method for transporting your treestand. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always inspect the carry straps before each use for any signs of wear or damage.
- Ensure that the straps are securely attached to your treestand before transporting.
- Use the straps only for their intended purpose; do not use them for any other activities.
- Keep the straps away from sharp objects and extreme heat to prevent damage.
- Store the straps in a cool, dry place when not in use.
- If you experience any discomfort while using the straps, discontinue use immediately.

Specific Safety Precautions for Use

- Ensure that the straps are adjusted properly to fit your body size.
- Do not overload the straps beyond their recommended capacity.
- Avoid using the straps in wet or slippery conditions to prevent accidents.
- Be aware of your surroundings while transporting your treestand, especially in crowded or uneven areas.
- If you are using the straps with children, ensure adult supervision at all times.
- Do not allow children to use the straps without proper adult guidance.

Instructions for Installation and Usage

1. Preparation:

- Before installation, lay out the straps to ensure they are untangled and free from knots.

2. Attaching the Straps to the Treestand:

- Locate the attachment points on your treestand.
- Thread the straps through the designated loops or hooks on the treestand.
- Ensure that the straps are securely fastened and will not slip during transport.

3. Adjusting the Straps:

- Put the straps over your shoulders to wear them like a backpack.
- Adjust the length of the straps to ensure a comfortable fit.
- Make sure the weight of the treestand is evenly distributed across your shoulders.

4. Transporting the Treestand:

- Keep your back straight and use your legs to lift when picking up the treestand.
- Walk slowly and carefully, especially on uneven terrain.
- If you need to navigate obstacles, take your time to ensure safety.

5. After Use:

- Remove the straps from the treestand and clean them if necessary.

- Store the straps in a safe place away from moisture and direct sunlight.

Disposal Instructions

- When the straps have reached the end of their useful life, dispose of them in accordance with local regulations.
- Do not dispose of the straps in a manner that may harm the environment.
