Safety Instruction Guide for LEWIS LEAD REMOVER FOR RIFLES & SHOTGUNS

Introduction

Thank you for choosing the Lewis Lead Remover for Rifles & Shotguns by Brownells. This product is designed to effectively remove lead and wad fouling from your firearm while ensuring the safety of both the user and the equipment. Please read this safety instruction guide carefully to ensure proper use and compliance with safety regulations.

General Safety Guidelines

- **Product Safety:** This product is designed for safe use with rifles and shotguns, ensuring that users can clean their firearms without causing damage or injury.
- **Enhanced Recalls:** In the unlikely event that a safety issue arises with this product, standardized recall notices will be issued, and free remedies will be provided.
- **Online Shopping:** If purchased online, this product is subject to the same safety protections as those bought in physical stores.
- **Special Consumer Focus:** Extra care should be taken when this product is used around vulnerable groups, particularly children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU-based contact for assistance.
- **Rapid Alerts:** Stay informed about any updates on product safety through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Use Personal Protective Equipment (PPE):** Always wear safety glasses and gloves when using the lead remover to protect against lead exposure and debris.
- **Keep Out of Reach of Children:** This product should be stored in a safe location, away from children and pets.
- **Avoid Inhalation:** Do not inhale dust or particles generated during use. Work in a well-ventilated area.
- **Inspect Product Before Use:** Check the lead remover for any damage or wear before use. Do not use if damaged.
- **Follow Manufacturer Instructions:** Always adhere to the instructions provided with the product for optimal safety and performance.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including the Lewis Lead Remover kit, cleaning rod, and JB Bore Cleaner.

2. Attaching the Lead Remover:

- Attach the rubber tip of the lead remover to any cleaning rod with 832 threads.
- Ensure a secure fit to prevent detachment during use.

3. Using the Lead Remover:

- Insert the brass patches into the bore of the firearm.

- Gently push the cleaning rod with the attached lead remover through the bore, removing lead and plastic deposits.
- Repeat this process as necessary until the bore is clean.

4. PostCleaning:

- After using the lead remover, follow up with JB Bore Cleaner for a thorough clean.
- Ensure all cleaning materials are properly disposed of according to local regulations.

Disposal Instructions

- Dispose of any used patches and cleaning materials in accordance with local waste disposal regulations.
- Do not dispose of lead or hazardous materials in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Lewis Lead Remover, please consult the manufacturer's website or customer service resources for assistance.

Thank you for prioritizing safety while using the Lewis Lead Remover for Rifles & Shotguns. Your adherence to these guidelines will ensure a safe and effective cleaning experience.
