

Sinclair Chamber Length Gage - SINCLAIR INTERNATIONAL CHAMBER LENGTH GAUGE, 338 CALIBER

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The Sinclair Chamber Length Gauges are designed so the handloader can determine the true length of his rifle's chamber when measuring from the bolt face to the end of the chamber's neck. This measurement will tell you how much excess case length your chamber may have over published trim lengths in reloading handbooks. The Sinclair Gauges are inserted into a fired, unprimed shortened case and then chambered into your rifle. The insert pushes back into the case when it contacts the end of your chamber. You then extract the case and measure the overall length. The gauge is made of 12L14 soft steel so it will not damage your chamber. Step-by-step instructions accompany each gauge. The gauges can be used over and over again. The differences between published trim lengths and the actual length of your chamber can be quite significant. You could be over trimming your cases by .030 inch or more. NOTE: The 22 caliber gauge will not work on thin-necked cases such as the 22 Hornet, 218 Bee, or cartridges based on these cases. The 30 caliber gauge will not work on the 30-30 Winchester. None of the gauges listed will work on tight-necked chambers except for the G-243T. Should not be used in handguns, semi automatic rifles, lever actions rifles and pump action rifles.

Attributes

- Name: [SINCLAIR INTERNATIONAL CHAMBER LENGTH GAUGE, 338 CALIBER](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000752
- Mfr. No.: G338
- Caliber: 338 Caliber (.338)
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm

Sinclair Chamber Length Gage Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Chamber Length Gage. This product is designed to help handloaders accurately measure the length of their rifle's chamber. It is essential to understand how to use this tool safely and effectively to avoid potential hazards and ensure optimal performance.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and individuals who may not understand its use.
- Regularly inspect the gage for any signs of wear or damage before each use.
- If you notice any defects or irregularities, do not use the gage and contact the manufacturer for support.
- Do not use the gage on firearms or chambers that it is not designed for, as this may lead to inaccurate measurements or damage.

Specific Safety Precautions for Use

- The Sinclair Chamber Length Gage is designed for use with specific calibers. Ensure you are using the correct gage for your firearm.
- Do not use the 22 caliber gauge on thinnecked cases such as the 22 Hornet or 218 Bee.
- The 30 caliber gauge should not be used on the 3030 Winchester.
- Avoid using the gage in handguns, semiautomatic rifles, leveraction rifles, and pumpaction rifles.
- Always wear safety glasses when handling firearms and ammunition.
- Ensure the firearm is pointed in a safe direction when chambering the gage.
- Handle all equipment with care to avoid injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Use a fired, unprimed, and shortened case for measurement.

2. Using the Gage:

- Insert the Sinclair Chamber Length Gage into the prepared case.
- Chamber the case in your rifle's action carefully.
- The gage will push back into the case when it contacts the end of the chamber.
- Extract the case from the chamber.

3. Measuring:

- Measure the overall length of the case using a caliper or appropriate measuring tool.
- Compare the measurement to published trim lengths in reloading handbooks to determine if your chamber has excess case length.

4. Reusing the Gage:

- The Sinclair Gauges are designed for repeated use. Clean and inspect them after each use to

ensure they remain in good condition.

Disposal Instructions

- Dispose of the product in accordance with your local regulations.
- Do not discard in regular household waste if it is damaged or no longer usable.
- Check with local waste management authorities for proper disposal methods for metal products.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Chamber Length Gage, please reach out to the manufacturer directly for assistance. Ensure to have the product details on hand for a more efficient response.

By following these safety guidelines and instructions, you can ensure the safe and effective use of your Sinclair Chamber Length Gage. Thank you for your attention to safety and for choosing our product.
