

Sinclair Chamber Length Gage - SINCLAIR INTERNATIONAL CHAMBER LENGTH GAUGE, 6.5MM

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The Sinclair Chamber Length Gauges are designed so the handloader can determine the true length of his rifle's chamber when measuring from the bolt face to the end of the chamber's neck. This measurement will tell you how much excess case length your chamber may have over published trim lengths in reloading handbooks. The Sinclair Gauges are inserted into a fired, unprimed shortened case and then chambered into your rifle. The insert pushes back into the case when it contacts the end of your chamber. You then extract the case and measure the overall length. The gauge is made of 12L14 soft steel so it will not damage your chamber. Step-by-step instructions accompany each gauge. The gauges can be used over and over again. The differences between published trim lengths and the actual length of your chamber can be quite significant. You could be over trimming your cases by .030 inch or more. NOTE: The 22 caliber gauge will not work on thin-necked cases such as the 22 Hornet, 218 Bee, or cartridges based on these cases. The 30 caliber gauge will not work on the 30-30 Winchester. None of the gauges listed will work on tight-necked chambers except for the G-243T. Should not be used in handguns, semi automatic rifles, lever action rifles and pump action rifles.

Attributes

- Name: [SINCLAIR INTERNATIONAL CHAMBER LENGTH GAUGE, 6.5MM](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000783
- Mfr. No.: G264
- Caliber: 264/6.5 mm (.264)
- Delivery weight: 0.032kg
- Shipping width: 102mm
- Shipping length: 152mm

Sinclair Chamber Length Gage Safety Instructions

Introduction

Thank you for choosing the Sinclair Chamber Length Gage. This product is designed to help handloaders determine the true length of their rifle's chamber. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always ensure that the firearm is unloaded before using the gauge.
- Use the gauge only for its intended purpose as specified in the product description.
- Keep the gauge out of reach of children and unauthorized users.
- Inspect the gauge before each use for any signs of damage or wear.
- If the gauge is damaged, do not use it and contact customer support for assistance.
- Follow all local laws and regulations regarding the use of firearms and related accessories.

Specific Safety Precautions for Use

- The gauge is made of 12L14 soft steel and is designed not to damage your chamber. However, avoid excessive force when inserting or extracting the gauge.
- Do not use the gauge on tightnecked chambers unless specified (G243T is the exception).
- The 22 caliber gauge is not suitable for thinnecked cases such as the 22 Hornet or 218 Bee.
- The 30 caliber gauge should not be used with the 3030 Winchester.
- This product should not be used in handguns, semiautomatic rifles, leveraction rifles, or pumpaction rifles.
- Be aware that differences between published trim lengths and your chamber's actual length can be significant, which may affect case trimming.

Instructions for Installation and Usage

1. Preparation:

- Ensure the rifle is unloaded.
- Obtain a fired, unprimed, shortened case compatible with your gauge.

2. Using the Gauge:

- Insert the Sinclair Chamber Length Gage into the fired case.
- Chamber the case into your rifle gently.
- The gauge will push back into the case when it contacts the end of your chamber.
- Carefully extract the case from the chamber.

3. Measuring Length:

- Measure the overall length of the case with the gauge still inserted.
- Take note of the measurement for your records.

4. Repeat Use:

- The gauges can be used multiple times. Clean and inspect the gauge after each use.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the gauge is no longer usable, consider recycling the materials where possible.
- Do not dispose of the gauge in regular household waste.

Contact Information for Further Support

For any inquiries regarding the Sinclair Chamber Length Gage, please consult the manufacturer's customer service or website for assistance and support.

By following these safety instructions, you can ensure a safe and effective experience with your Sinclair Chamber Length Gage. Thank you for your attention to safety and compliance.
