

NECK SIZING DIES - REDDING NECK SIZING DIE 25-06 REMINGTON

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Safety Instruction Guide for Redding Neck Sizing Die 2506 Remington

Introduction

Thank you for choosing the Redding Neck Sizing Die 2506 Remington. This product is designed to enhance the accuracy and longevity of your bottleneck cases. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that your work area is clean and welllit.
- Keep the die out of reach of children and pets.
- Use the die only for its intended purpose as specified in this guide.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding reloading and firearms.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety glasses and gloves when operating the die to protect against metal shavings and other debris.
- **Firearm Compatibility:** Ensure that the die is compatible with your specific rifle model. Using the die with an incompatible firearm can lead to safety hazards.
- **Case Preparation:** Only use fired cases that have been properly cleaned and inspected for damage.
- **Neck Sizing Only:** Remember that this die is designed for neck sizing only. Do not attempt to size the shoulder or body of the case with this die.
- **Avoid Interchange:** Do not interchange fired cases between different rifles, as this can lead to improper fit and potential safety issues.

Instructions for Installation and Usage

1. Setup:

- Ensure that your reloading press is properly mounted and secured.
- Insert the Redding Neck Sizing Die into the press according to the manufacturer's instructions.

2. Adjusting the Die:

- Adjust the die to the appropriate height for your specific cases. Follow the instructions provided with your reloading press for proper adjustment techniques.

3. Reloading Process:

- Place a cleaned and inspected fired case into the shell holder of the press.
- Pull the handle to raise the ram and engage the die with the case neck.
- Lower the ram to complete the sizing process.
- Repeat this process for each case you intend to size.

4. PostUse Care:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe, dry place away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not throw the die in regular trash. Instead, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the Redding Neck Sizing Die 2506 Remington, please refer to the manufacturer's contact information or consult the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die 2506 Remington. Always prioritize safety and stay informed about any product recalls or safety alerts through the EU's Safety Gate platform. Thank you for your attention to these important guidelines.
