

# NECK SIZING DIES - REDDING NECK SIZING DIE 300 WIN MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

# Safety Instruction Guide for Redding Neck Sizing Die 300 Win Mag

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. The Redding Neck Sizing Die is designed to size only the necks of bottleneck cases, which is crucial for maintaining the accuracy and longevity of your brass. Please read this guide carefully before use.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that you are using the Redding Neck Sizing Die with compatible cartridges only (300 Winchester Magnum).
- Store the die in a dry, safe place, away from children and unauthorized users.
- Inspect the die for any signs of damage or wear before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Never interchange fired cases between different rifles, as this can lead to safety hazards.

## Specific Safety Precautions for Use

- Ensure that the reloading press is stable and securely mounted before use.
- Keep fingers and hands clear of any moving parts during operation.
- Do not exceed recommended loads when reloading ammunition.
- Be aware of your surroundings and avoid distractions while using the die.
- If you experience any issues during operation, stop immediately and troubleshoot the problem before continuing.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the Redding Neck Sizing Die onto your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent any movement during operation.

### 2. Usage:

- Begin by preparing your brass cases according to standard reloading practices.
- Insert the brass case into the die, ensuring it is seated correctly.
- Operate the reloading press to size the neck of the case. Ensure smooth operation and avoid forcing the press.
- After sizing, carefully remove the case from the die.
- Inspect the sized case for proper dimensions and quality.

## Disposal Instructions

- Dispose of any damaged or unusable parts of the die in accordance with local regulations.
- Recycle packaging materials whenever possible.
- Ensure that all waste is disposed of in a safe and environmentally friendly manner.

## **Contact Information for Further Support**

For any questions or concerns regarding the Redding Neck Sizing Die, please refer to the manufacturer's website or contact their support team. Always ensure you have the product information available when seeking assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die. Always prioritize safety and consult the manufacturer's guidelines for any additional information.
