

# FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 250 SAVAGE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

## Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 250 SAVAGE](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004573
- Mfr. No.: 12201
- Cartridge: 250 Savage
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.522kg
- Shipping height: 36mm
- Shipping width: 114mm
- Shipping length: 152mm
- UPC: 076683122018

# Safety Instruction Guide for RCBS Full Length 2Die Set 250 Savage

## Introduction

Thank you for choosing the RCBS Full Length 2Die Set for 250 Savage. This guide provides essential safety instructions to ensure the safe and effective use of your reloading equipment. Please read this guide carefully before using the product.

## General Safety Guidelines

- **Product Safety:** Ensure safe handling and use of this product. Follow all instructions to minimize risks associated with reloading.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. If a recall occurs, follow the provided instructions for remedies.
- **Online Shopping:** If purchased online, ensure the seller complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please consult your local EU safety authority.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on any unsafe products.

## Specific Safety Precautions for Use

- **Read Instructions:** Always read and understand the product instructions before use.
- **Use Proper Lubrication:** Ensure cases are lubricated before fulllength sizing to prevent damage to the die and cases.
- **Check Equipment:** Regularly inspect your reloading equipment for wear and tear. Replace any damaged parts immediately.
- **Proper Setup:** Ensure that the die is correctly set up in the press to avoid accidents and ensure proper functioning.
- **Avoid Overloading:** Do not exceed the recommended loads for your reloading setup.
- **Protective Gear:** Wear safety glasses and gloves while reloading to protect against any potential hazards.
- **Ventilation:** Ensure good ventilation in your reloading area to avoid inhaling any dust or fumes.

## Instructions for Installation and Usage

### Installation

1. **Prepare Your Workspace:** Ensure your reloading area is clean, organized, and welllit.
2. **Set Up the Press:** Securely mount the reloading press to a stable workbench.
3. **Install the Sizing Die:**
  - Insert the fulllength sizing die into the press.
  - Adjust the die to the correct height according to the manufacturer's instructions.
4. **Install the Seater Die:**
  - Insert the seater die into the press.
  - Adjust the die to the proper position for bullet seating.

### Usage

1. **Lubricate Cases:** Apply a suitable case lubricant to the exterior of the cases before sizing.
2. **FullLength Sizing:**
  - Insert a lubricated case into the press.

- Pull the handle to size the case.
- Repeat for all cases to be sized.

### 3. **Seating Bullets:**

- After sizing, insert a bullet into the case mouth.
- Place the case in the seater die and pull the handle to seat the bullet.
- Adjust the die as necessary to achieve the desired bullet seating depth.

### 4. **Crimping (if desired):** Adjust the seater die to crimp the case if you choose to do so.

## Disposal Instructions

- **Dispose of Unused Components:** Follow local regulations for the disposal of any unused or expired reloading components.
- **Recycle Packaging:** Recycle the packaging materials whenever possible.
- **Hazardous Waste:** Dispose of any hazardous materials, such as spent primers or contaminated lubricants, at designated hazardous waste facilities.

## Contact Information for Further Support

For any questions or concerns regarding the RCBS Full Length 2Die Set, please consult your local retailer or manufacturer for assistance. Always ensure compliance with local laws and regulations regarding reloading equipment and practices.

By following these safety instructions, you can ensure a safe and efficient reloading experience with your RCBS Full Length 2Die Set for 250 Savage. Thank you for prioritizing safety in your reloading activities.
