

# FULL LENGTH DIE SETS - FULL LENGTH 2-DIE SET 7MM WSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

## Attributes

- Name: [FULL LENGTH 2-DIE SET 7MM WSM](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004582
- Mfr. No.: 31401
- Cartridge: 7 mm WSM (Winchester Short Magnum)
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.249kg
- Shipping height: 41mm
- Shipping width: 58mm
- Shipping length: 135mm
- UPC: 076683314017

# Safety Instruction Guide for FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 7MM WSM

## Introduction

Thank you for choosing the FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 7MM WSM. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before use to understand how to operate the die set safely.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process before using this product.
- Always wear appropriate safety gear, including eye protection and gloves, while reloading.
- Keep the die set out of reach of children and vulnerable individuals.
- Use the die set only for its intended purpose and as described in this guide.
- Regularly inspect the die set for any signs of wear or damage before each use.
- If you encounter any issues or have questions about the product, seek assistance from a qualified professional.

## Specific Safety Precautions for Use

- Always lubricate cases before full length sizing to prevent stuck cases in the die.
- Do not exceed the recommended load specifications for your firearm.
- Use a cartridge headspace gauge tool to ensure proper shoulder bump.
- Ensure the press is securely mounted and stable before operating the die set.
- Make adjustments to the die position slowly and carefully to avoid accidents.
- Never place your hands or fingers near the die while the press is in operation.
- Do not attempt to modify or alter the die set in any way.

## Instructions for Installation and Usage

### 1. Installation

- Securely mount the press on a stable work surface.
- Install the full length sizing die in the press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent movement during operation.

### 2. Usage

- Prepare your cases by cleaning and lubricating them thoroughly.
- Insert the case into the shell holder of the press.
- Adjust the die to achieve the desired shoulder bump using the cartridge headspace gauge tool.
- Operate the press to resize the case. Ensure that the die is functioning correctly throughout the process.
- After resizing, use the seater die to seat the bullet into the case, following the same adjustment procedures.
- If crimping is desired, adjust the die accordingly to create the necessary crimp on the bullet.

## Disposal Instructions

- Dispose of any spent primers, used cases, and other waste materials in accordance with local regulations.
- Do not dispose of the die set in regular household waste.
- Contact local recycling facilities for proper disposal options for metal components.

## **Contact Information for Further Support**

For any inquiries or concerns regarding safety or usage of the FULL LENGTH DIE SETS FULL LENGTH 2DIE SET 7MM WSM, please consult a qualified professional or refer to the manufacturer's customer support resources.

By following these guidelines, you can ensure the safe and effective use of your die set. Thank you for your attention to these important safety instructions.
