

FULL LENGTH DIE SETS - RCBS FULL LENGTH 2-DIE SET 7MM STW

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full length die sets are for bottleneck rifle and pistol cases, and they include a full length sizing die and a seater die. The full length die will bump the shoulder of the case to extent the die is adjusted up or down in the press. We suggest using a cartridge headspace gage tool to get the correct shoulder bump. The full length die also sizes the body of the case so it will chamber easily for the next firing, then the die decaps the spent primer. The expander ball passes through the neck of the case and sizes the neck to the correct tension. Cases must be lubricated before full length sizing. The RCBS seater dies for bottleneck cases will seat bullets correctly in full length sized cases or neck sized cases. These seater dies have a built-in crimp ring to enable you to crimp the case into the bullet if you wish to. The seater die is easily adjusted to crimp or not to crimp by raising or lowering the die position in the press. Full length 2 die sets are the basic building block of the reloading process. Many shooters wear out multiple barrels or rifles using just one full length reloading die set. We recommend that new reloaders start with a full length die set and learn how to set the dies up correctly before they jump in to other types of reloading dies.

Attributes

- Name: [RCBS FULL LENGTH 2-DIE SET 7MM STW](#)
- Manufacturer: [RCBS](#)
- Product no.: 749004620
- Mfr. No.: 26601
- Cartridge: 7 mm STW
- Die Style: Full Length Sizing Dies
- Delivery weight: 0.249kg
- Shipping height: 41mm
- Shipping width: 58mm
- Shipping length: 135mm
- UPC: 076683266019

Safety Instruction Guide for RCBS Full Length 2Dye Set 7MM STW

Introduction

Thank you for choosing the RCBS Full Length 2Dye Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before use to avoid accidents and ensure compliance with safety regulations.

General Safety Guidelines

- Always wear appropriate eye and ear protection when reloading.
- Keep the reloading area clean and organized to prevent accidents.
- Store reloading components, including dies, in a secure location away from children and pets.
- Do not exceed recommended load data from reputable sources.
- Use caution when handling primers and powders, as they can be sensitive to heat and impact.
- Ensure that all tools and equipment are in good working condition before use.
- Follow all local, state, and national laws regarding reloading and ammunition.

Specific Safety Precautions for Use

- Ensure that cases are properly lubricated before sizing to avoid stuck cases.
- Always check the die adjustment before beginning the reloading process.
- Use a cartridge headspace gauge tool to verify the correct shoulder bump.
- Avoid using damaged or wornout dies, as they can affect performance and safety.
- Do not attempt to modify the dies or any other reloading equipment.
- Be aware of the potential hazards associated with the materials used in reloading, including lead exposure.

Instructions for Installation and Usage

1. Setup:

- Securely mount your reloading press according to the manufacturer's instructions.
- Install the full length sizing die in the press, ensuring it is tightened properly.
- Adjust the die according to the desired shoulder bump using the provided instructions.

2. Sizing Cases:

- Lubricate the cases thoroughly before inserting them into the sizing die.
- Operate the press to size the case, ensuring the die is adjusted correctly.
- Remove the sized case and inspect it for proper sizing.

3. Seating Bullets:

- Install the seater die in the press after sizing the cases.
- Adjust the seater die to achieve the desired bullet seating depth.
- Insert the bullet into the case and operate the press to seat the bullet.

4. Crimping (if desired):

- If crimping is needed, adjust the seater die to engage the crimp ring.
- Ensure the crimp is applied evenly and securely.

5. Final Inspection:

- Inspect each completed round for proper assembly and safety.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any unused or expired reloading materials, such as powders and primers, according to local regulations.
- Do not discard hazardous materials in regular trash. Contact local waste management authorities for proper disposal methods.
- Recycle metal components when possible, following local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's website or customer support channels. Always ensure that you have the latest information regarding product recalls and safety updates.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the RCBS Full Length 2Dye Set 7MM STW. Thank you for your commitment to safety in your reloading practices.
