

# FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 300 REMINGTON ULTRA MAG FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

## Attributes

# Safety Instruction Guide for Forster Full Length Sizing Dies

## Introduction

Thank you for choosing Forster Full Length Sizing Dies. These highquality reloading dies are designed to help you produce precise and concentric rounds. To ensure your safety and the safe use of this product, please read and follow the instructions outlined in this guide.

## General Safety Guidelines

- Always handle reloading equipment with care to prevent accidents.
- Ensure that your workspace is clean and organized to avoid distractions.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, while reloading.
- Keep reloading dies and components out of reach of children and pets.
- Follow all local laws and regulations regarding reloading and ammunition.
- Always work in a wellventilated area to avoid inhaling any dust or fumes.

## Specific Safety Precautions for Use

- Inspect the die for any damage or defects before use. Do not use if damaged.
- Ensure that the die is properly installed in your reloading press before beginning the reloading process.
- Use only the recommended cartridges for this die (300 Remington Ultra Magnum).
- Avoid using excessive force when operating the die to prevent injury or damage.
- Keep your hands and body clear of the die during operation to avoid pinching or crushing injuries.
- Be aware of your surroundings and ensure that no one is in close proximity while you are reloading.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Securely attach the die to your reloading press using the Forster Cross Bolt Die Locking Ring. Ensure it is tightened properly.
- Adjust the die to the desired height based on your reloading specifications.

### 2. Usage:

- Prepare your brass cases by cleaning and inspecting them for any defects.
- Insert the brass case into the die, ensuring it is seated properly.
- Use the EZ Out Expander button to expand the neck of the case, maintaining concentricity.
- Withdraw the case slowly and steadily from the die, ensuring that the neck and case remain aligned.
- Repeat the process for each case, maintaining a consistent technique to ensure quality.

## Disposal Instructions

- Dispose of any used or defective reloading dies and components in accordance with local regulations.
- Do not throw dies or components in regular household waste. Check for designated recycling or hazardous waste disposal sites.

## Contact Information for Further Support

For any safety inquiries or additional support, please refer to the product packaging or visit the manufacturer's website for further assistance.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Forster Full Length Sizing Dies. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for your commitment to safe reloading practices.
