

LOCK-N-LOAD AP SHELLPLATE - #5 LOCK-N-LOAD AP PROGRESSIVE PRESS SHELLPLATE

[Reloading](#) > [Shellholders & Shellplates](#)

Shell plates for Lock-N-Load AP and Pro-Jector are available to fit most calibers. Each shell plate will also hold additional calibers with the same case head dimensions. Current shell plates are designed to fit Lock-N-Load AP (both EZ-Ject and wire ejector models) and Pro-Jector presses. These shell plates require the purchase of the 749-012-552 Hornady Auto press retrofit kit if your press still has the OLD STYLE SPRING TYPE CARTRIDGE CASE EJECTOR SYSTEM. If you have any questions please contact your Sinclair tech 800-717-8211. View Hornady Shellplate Chart.

LOCKNLOAD AP SHELLPLATE #5 Safety Instruction Guide

Introduction

Thank you for choosing the LOCKNLOAD AP SHELLPLATE #5. This guide provides essential safety instructions and operational guidelines to ensure the safe and effective use of this product. Please read this manual thoroughly before using the shell plate.

General Safety Guidelines

- Ensure that the shell plate is compatible with your LockNLoad AP or Projector press model.
- Always handle the shell plate with care to avoid injury.
- Keep the shell plate and all components out of reach of children and vulnerable individuals.
- Regularly inspect the shell plate for wear and damage before each use.
- Follow all manufacturer recommendations for use and maintenance.
- Be aware of the specific calibers that are compatible with the shell plate and ensure you are using the correct cartridge.

Specific Safety Precautions for Use

- Use only the recommended Hornady Auto press retrofit kit (part number 749012552) if your press has the old style spring type cartridge case ejector system.
- Do not attempt to modify the shell plate or press in any way that is not specified by the manufacturer.
- Avoid using the shell plate in wet or damp conditions to prevent rust and corrosion.
- Ensure that the shell plate is securely attached to the press before operation.
- Do not exceed the recommended load specifications for the shell plate.
- Always wear appropriate safety gear, including eye protection, when operating the press.

Instructions for Installation and Usage

1. Installation:

- Ensure that your LockNLoad AP or Projector press is turned off and unplugged.
- Remove any existing shell plate from the press.
- Align the LOCKNLOAD AP SHELLPLATE #5 with the mounting points on the press.
- Securely attach the shell plate using the provided hardware, ensuring it is tightly fastened.
- If applicable, install the Hornady Auto press retrofit kit according to the manufacturer's instructions.

2. Usage:

- Load only compatible cartridges into the shell plate. The following calibers are supported:
 - 458 Winchester Magnum
 - 375 H&H Magnum
 - 338 Winchester Magnum
 - 416 Remington Mag
 - 458 Lott
 - 340 Weatherby Magnum
 - 350 Remington Mag
 - 375 Ruger
 - 450 Marlin
 - 375 Remington Ultra Magnum

- 358 Norma Mag
- 416 Ruger
- Begin operation by following the press's standard procedures for reloading.
- Monitor the operation closely for any signs of malfunction or abnormal behavior.
- After completing the reloading process, carefully remove the cartridges from the shell plate.

Disposal Instructions

- Dispose of any damaged or worn shell plates in accordance with local regulations.
- Do not dispose of the shell plate in regular household waste if it is contaminated with chemicals or hazardous materials.
- Consider recycling options for metal components where applicable.

Contact Information for Further Support

For any questions or concerns regarding the LOCKNLOAD AP SHELLPLATE #5, please reach out to your local Sinclair tech or consult the manufacturer's website for additional resources and support.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with your LOCKNLOAD AP SHELLPLATE #5. Always prioritize safety and compliance with the general product safety regulations. Thank you for your attention to these guidelines.
