

BENCH REST® SEATER DIES - FORSTER PRODUCTS, INC. 300 WSM

BENCH REST SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Bench Rest Seater Dies were the first of their kind to utilize a close fitting chamber that holds the case, the bullet and the seating stem all in perfect alignment. This support system allows the reloader to produce exceptionally straight ammunition. Conventional seating dies with a fixed chamber and seating system may start your bullet into the case neck at an angle. They lack the support the Forster Bench Rest Seater provides.

Attributes

- Name: [FORSTER PRODUCTS, INC. 300 WSM BENCH REST SEATER DIE](#)

Forster Bench Rest® Seater Dies Safety Instruction Guide

Introduction

Thank you for choosing the Forster Bench Rest® Seater Dies. These highquality reloading dies are designed to help you produce concentric rounds with precision. It is essential to follow safety guidelines to ensure safe use and optimal performance. This guide provides important safety instructions and information in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that all reloading equipment is used in a wellventilated area.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading materials.
- Keep all components and tools out of reach of children and other unauthorized individuals.
- Regularly inspect your reloading dies and equipment for wear and damage.
- Follow all manufacturer instructions and guidelines for safe operation.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always verify that the die is properly installed before use.
- Ensure that the reloading press is securely mounted to a stable surface.
- Use only the recommended cartridge (300 WSM) and components for the Forster Bench Rest Seater Die.
- Do not exceed the recommended load limits for your reloading components.
- Avoid using damaged or wornout components, as they may lead to malfunctions or accidents.
- Be cautious when handling primers and powders, as they can be hazardous if not managed properly.
- Always doublecheck the alignment of the bullet and case before seating.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Insert the Forster Bench Rest Seater Die into the reloading press.
- Tighten the die securely using the Forster Cross Bolt Die Locking Ring to prevent movement during operation.
- Adjust the seating depth according to your specific reloading requirements.

2. Usage:

- Prepare your cases by cleaning and inspecting them for defects.
- Insert the case into the die, ensuring it is properly seated.
- Place the bullet on the case mouth and align it with the seating stem.
- Slowly operate the reloading press to seat the bullet into the case.
- Inspect the finished round for proper seating depth and alignment.

Disposal Instructions

- Dispose of all used reloading materials, such as spent primers and powder, in accordance with local regulations.

- Do not dispose of hazardous materials in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Forster Bench Rest® Seater Dies. Thank you for your commitment to safety and precision in your reloading practices.
