

# TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 270 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

# **Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 270 WIN**

## **Introduction**

Thank you for choosing the Redding Type S Bushing Neck Die for your reloading needs. This guide provides essential safety instructions and usage information to ensure safe and effective operation of the product. Please read this guide carefully before using the die.

## **General Safety Guidelines**

- Always handle reloading tools and components with care to prevent accidents.
- Ensure that your workspace is clean, organized, and free from distractions.
- Use protective eyewear to safeguard against potential debris during the reloading process.
- Keep all reloading components out of reach of children and pets.
- Familiarize yourself with the product and its components before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Use the die only with the appropriate cartridge (270 Winchester).
- Ensure that the bushing is correctly installed before resizing any cases.
- Do not exceed the recommended size adjustments for the bushing.
- Always use the adjustable decapping rod as intended to avoid damaging the die or the cases.
- Avoid forcing the die or any components during operation; if resistance is felt, stop and check for obstructions.
- Regularly inspect the die and its components for wear and damage. Replace any damaged parts immediately.
- Follow manufacturer guidelines for the use of commercial brass and ensure compatibility with the die.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure the reloading press is securely mounted and stable.
- Select the appropriate sizing bushing for your desired neck tension.
- Insert the bushing into the die and secure it according to the manufacturer's instructions.
- Attach the die to your reloading press following the standard installation procedure.

### **2. Usage:**

- Place a clean, empty case into the shell holder of your reloading press.
- Adjust the decapping rod to the desired position if you need to resize only part of the neck length.
- Operate the reloading press to size the case neck, ensuring smooth operation without excessive force.
- After resizing, check the concentricity of the case neck for uniformity.
- If using commercial brass, utilize the standard size button for decapping if necessary.
- For neck sizing without the size button, ensure you have sorted or turned the case necks for uniformity.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle any metal parts where applicable.
- Do not dispose of the die or its components in regular household waste.

## **Contact Information for Further Support**

For safety inquiries or additional support regarding the Redding Type S Bushing Neck Die, please refer to the manufacturer's contact information provided in the product packaging or on their official website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Type S Bushing Neck Die. Thank you for prioritizing safety in your reloading practices.
