

TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 7MM-08 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 7MM08 REM

Introduction

Thank you for purchasing the TYPE S BUSHING NECK DIE 7MM08 REM. This product is designed to assist reloaders in achieving precise control over case neck sizing and tension. This guide provides essential safety instructions and usage guidelines to ensure your safety and the optimal performance of the die.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using the die.
- Always work in a wellventilated area to avoid inhaling any dust or particles.
- Keep the die and all reloading components out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all manufacturer instructions for the reloading process, including the use of appropriate materials and components.
- Avoid distractions while reloading to ensure full attention to the task at hand.

Specific Safety Precautions for Use

- Use only the recommended sizing bushings for this die to maintain safety and performance.
- Ensure that the adjustable decapping rod is securely positioned before use to prevent accidents.
- Do not exceed the manufacturer's recommended specifications for case neck sizing.
- Always wear safety glasses when operating reloading equipment to protect your eyes from debris.
- Handle all equipment with care to prevent accidental injury or damage.
- If you experience any unusual resistance or difficulty during operation, stop and inspect the equipment before proceeding.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is clean and free of debris.
- Install the TYPE S BUSHING NECK DIE into your reloading press according to the manufacturer's instructions.
- Select and insert the appropriate sizing bushing into the die, ensuring it is properly seated.
- Adjust the decapping rod to the desired position based on your reloading needs.

2. Usage

- Begin by preparing your brass cases according to standard reloading practices.
- Insert the brass case into the die and raise the press handle to resize the neck.
- If needed, adjust the decapping rod to resize only a portion of the neck length.
- After resizing, remove the case and inspect it for uniformity and proper sizing.
- Repeat the process for each case, ensuring that you maintain consistent pressure and technique.

Disposal Instructions

- Dispose of any damaged or unusable dies according to local regulations.
- Recycle metal components where possible.

- Do not dispose of reloading materials or components in regular household waste. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the TYPE S BUSHING NECK DIE 7MM08 REM, please refer to the manufacturer's website or contact customer support through the provided channels.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIE 7MM08 REM. Always prioritize safety and adhere to best practices for reloading.
