

TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 30-06 SPRINGFIELD

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 3006 SPRINGFIELD

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 3006 SPRINGFIELD. This product is designed to assist reloaders in achieving precision in case neck sizing. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the die in a wellventilated area.
- Keep the die out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Ensure that your workspace is clean and organized to prevent accidents.
- Regularly inspect the die for any signs of wear or damage before use.
- Do not use the die for purposes other than those specified by the manufacturer.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in the reloading press before use.
- Use only the recommended sizing bushings for this die to avoid malfunction.
- When adjusting the decapping rod, do so carefully to avoid injury.
- Be cautious when handling spent cases and reloading materials, as they may contain residues from previous uses.
- Always follow the manufacturer's instructions for the correct setup and operation of the die.
- Do not exceed the recommended load limits for the .3006 Springfield cartridge.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is turned off and unplugged.
- Mount the TYPE S BUSHING NECK DIE into the reloading press according to the manufacturer's instructions.
- Secure the die firmly to prevent movement during operation.

2. Using the Die

- Select the appropriate sizing bushing based on your desired neck size.
- Insert the sizing bushing into the die.
- Adjust the decapping rod to the desired height for your specific case neck length.
- Insert the case into the die and operate the reloading press to resize the neck.
- If necessary, adjust the bushing to resize only a portion of the neck length for precision.

3. PostUse Care

- Clean the die and bushing after use to prevent corrosion and maintain performance.
- Store the die in a safe and dry location when not in use.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not dispose of reloading materials in regular household waste.
- Check with local authorities for proper disposal methods of spent cartridges and hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the safety or use of the TYPE S BUSHING NECK DIE, please refer to the manufacturer's contact information available on the product packaging or website.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIE 3006 SPRINGFIELD. Always prioritize safety and adhere to the guidelines provided for optimal performance and safety. Thank you for your attention to these important safety measures.
