

# TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 300 REM ULTRA MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

# **Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 300 REM ULTRA MAG**

## **Introduction**

Thank you for choosing the TYPE S BUSHING NECK DIES by Redding. This product is designed to provide reloaders with precise control of case neck size and tension. It is essential to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

## **General Safety Guidelines**

- Always read and understand the product manual before use.
- Use this product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the dies.
- Ensure that the workspace is clean and free from obstructions to prevent accidents.
- Do not exceed the recommended sizing bushing increments.
- Handle the decapping rod and bushing with care to avoid injury.
- Always ensure the resizing bushing is properly positioned before use to avoid incorrect sizing.
- Avoid using the die with damaged or worn parts.
- Be cautious when adjusting the decapping rod to prevent pinching or injury.

## **Instructions for Installation and Usage**

### **1. Installation**

- Ensure the reloading press is properly set up and securely mounted.
- Select the appropriate sizing bushing based on your desired neck size.
- Insert the bushing into the die and ensure it is seated correctly.
- Attach the decapping rod to the die, ensuring the standard size button is in place.

### **2. Usage**

- Place the case in the reloading press shell holder.
- Raise the ram to bring the case into contact with the resizing bushing.
- If resizing only a portion of the neck length, adjust the decapping rod accordingly.
- After resizing, lower the ram and remove the case from the shell holder.
- For neck sizing without the size button, use the decapping pin retainer as needed.

### **3. PostUsage**

- Clean the dies after use to prevent buildup of residue.
- Store the dies in their original packaging or a protective case to prevent damage.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling programs or hazardous waste disposal options in your area.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the product packaging or visit the manufacturer's website for more information.

By following these safety instructions, you can ensure a safe and effective reloading experience with your TYPE S BUSHING NECK DIES. Thank you for your attention to safety.
