

TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 204 RUGER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 204 RUGER

Introduction

Thank you for choosing the Type S Bushing Neck Die for your reloading needs. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when operating reloading equipment.
- Keep the workspace clean and free of clutter to prevent accidents.
- Store the dies and components in a secure location, out of reach of children and pets.
- Regularly inspect the equipment for wear and damage. Do not use if any parts are damaged or missing.
- Dispose of any hazardous materials, such as spent primers and powders, according to local regulations.

Specific Safety Precautions for Use

- Use the Type S Bushing Neck Die only with compatible cartridges, specifically the 204 Ruger.
- Ensure that the resizing bushing is correctly installed and securely fastened before use.
- Do not attempt to modify or alter the die or its components.
- Avoid using excessive force when resizing; this may lead to equipment failure or injury.
- Always follow the recommended procedures for decapping and resizing to ensure safe operation.
- Keep hands and body clear of moving parts during operation to prevent injury.

Instructions for Installation and Usage

1. Installation of the Die:

- Secure the Type S Bushing Neck Die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

2. Adjusting the Bushing:

- Select the appropriate sizing bushing for your desired neck size. The bushings are available in .001" increments.
- Install the bushing into the die by following the provided instructions.

3. Setting Up the Decapping Rod:

- Adjust the decapping rod to the desired height to ensure proper decapping of the primer.
- Ensure that the standard size button is in place if you are using commercial brass.

4. Resizing Cases:

- Insert the case into the die and operate the press to resize the neck as needed.
- If you wish to resize only a portion of the neck length, adjust the decapping rod accordingly.

5. PostOperation:

- After resizing, inspect the cases for uniformity and any signs of damage.

- Clean the die and store it properly after use to maintain its condition.

Disposal Instructions

- Dispose of any spent primers, powder, and brass cases in accordance with local environmental regulations.
- Do not dispose of hazardous materials in regular trash. Follow your local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any safety inquiries or assistance regarding the Type S Bushing Neck Die, please contact the manufacturer or your local dealer. Ensure that you have your product details ready for a quicker response.

By following these guidelines, you can ensure a safe and effective reloading experience with the Type S Bushing Neck Die. Thank you for your commitment to safety and responsible use of reloading equipment.
