

# TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 6MM PPC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

# Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 6MM PPC

## Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 6MM PPC. This product is designed to assist reloaders in achieving precise control over case neck size and tension. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always read the product manual before use.
- Ensure that the workspace is clean and organized to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Inspect the die and all components for damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.
- Wear appropriate safety gear, including safety glasses and gloves, during use.

## Specific Safety Precautions for Use

- Use only the recommended sizing bushings for this die to avoid malfunction or injury.
- Ensure that the decapping rod is properly adjusted before use to prevent accidental damage to the die or cases.
- Do not exceed the recommended neck sizing limits to avoid compromising case integrity.
- Be cautious when handling sharp components, such as the decapping pin.
- Never attempt to modify the die or its components, as this may lead to unsafe conditions.
- Always work in a wellventilated area to avoid inhaling dust or debris.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die into the reloading press according to the manufacturer's instructions.
- Attach the appropriate sizing bushing, ensuring it is seated correctly.
- Adjust the decapping rod to the desired height for your specific case length.

### 2. Usage:

- Begin by inserting the case into the die, ensuring it is properly aligned.
- Operate the reloading press to resize the case neck as needed.
- If necessary, adjust the decapping rod to resize only a portion of the neck length.
- After resizing, remove the case and inspect it for proper sizing and any signs of damage.

### 3. PostUse Care:

- Clean the die and components after each use to prevent corrosion and buildup.
- Store the die in its original packaging or a protective case to avoid damage.

## **Disposal Instructions**

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not throw the die or its components in regular household waste.
- Consider recycling where possible, especially for metal components.

## **Contact Information for Further Support**

For further support or safety inquiries, please consult your local dealer or manufacturer's website. Ensure you have the product details available for assistance.

By following these safety guidelines and instructions, you can help ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 6MM PPC.
