

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 7MM REM SAUM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 7MM REM SAUM

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIE 7MM REM SAUM by Redding. This product is designed to assist reloaders in controlling case neck size and tension effectively. It is important to follow safety guidelines to ensure safe and effective use of this product.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Use the die only for its intended purpose as outlined in this guide.
- Keep the die and all related components out of reach of children.
- Inspect the die regularly for any signs of wear or damage before each use.
- If you experience any difficulties or have questions, seek assistance from a qualified professional.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted to the reloading press before use.
- Always wear safety glasses to protect your eyes from debris or unexpected incidents.
- Avoid wearing loose clothing or jewelry that could become entangled in the reloading press.
- Do not attempt to modify the die or its components.
- Follow proper reloading procedures and guidelines to avoid accidents and ensure consistent results.
- When using the adjustable decapping rod, ensure it is set correctly to avoid damaging the case neck.
- Be cautious when handling spent cases and any materials involved in the reloading process.

Instructions for Installation and Usage

1. Installation:

- Securely mount the TYPE S BUSHING NECK DIE onto your reloading press.
- Make sure the die is tightened and properly aligned before proceeding.
- Insert the sizing bushing of your choice, ensuring it is seated correctly.

2. Usage:

- Adjust the decapping rod to the desired position based on your reloading requirements.
- Insert the case into the die and follow the reloading press instructions to resize the neck.
- If necessary, use the decapping rod to resize only a portion of the neck length.
- After resizing, inspect the case for any signs of damage or irregularities.
- Store the die and all components in a safe and dry location when not in use.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle materials whenever possible, and ensure that any hazardous materials are disposed of safely.
- Do not throw away the die or its components in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product-related questions, please refer to the manufacturer's official website or contact their customer support.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIE 7MM REM SAUM. Always prioritize safety and seek assistance if you are unsure about any procedures. Thank you for choosing Redding products.
