

SINCLAIR SCOPE ALIGNMENT TOOL - PREMIUM SCOPE ALIGNMENT TOOL

[Gunsmith Tools & Supplies](#) > [Sight & Scope Installation Tools](#) > [Scope Alignment Rods](#)

Our Scope Ring Alignment Tool will enable any shooter to properly align and install both 30mm and one inch scope rings from any manufacturer in any style. Use the Alignment Tool before lapping, to align the scope tube in the rings. This Alignment tool goes beyond the traditional pointed rod style tools in that the alignment rods are adjustable within the two tool bodies after the bodies are mounted in the scope rings - no more loosening the rings several times to adjust the rod point lengths. The rods are held in the tool bodies by precision machined collets which exactly center anodized aluminum with cylinder sizes to fit 1 inch rings and 30mm rings. This tool is easy to use, and makes correct scope mounting much easier. Licensed per USPATNO 7313885

Attributes

- Name: [PREMIUM SCOPE ALIGNMENT TOOL](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749006613

SINCLAIR SCOPE ALIGNMENT TOOL SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the SINCLAIR Scope Alignment Tool. This guide provides essential safety instructions and usage guidelines to ensure your safety and the proper functioning of the product. Please read this manual thoroughly before using the tool.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always inspect the tool for any damage or wear before each use.
- Keep the tool out of reach of children and vulnerable individuals.
- Avoid using the tool in wet or damp conditions to prevent slips and potential accidents.
- Be aware of your surroundings and ensure that your workspace is clear of obstacles.

Specific Safety Precautions for Use

- Use the tool only for its intended purpose: aligning and installing scope rings.
- Do not force any components of the tool; if it does not fit, check for obstructions or misalignment.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using the tool.
- Do not modify the tool in any way, as this may compromise its safety and effectiveness.
- Always follow proper gun safety practices when using the tool in conjunction with firearms.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components, including the SINCLAIR Scope Alignment Tool.

2. Aligning Scope Rings:

- Place the tool's bodies into the scope rings securely.
- Adjust the alignment rods as needed to ensure they are centered within the rings.
- Tighten the scope rings gently, ensuring that the alignment rods remain in place.

3. Lapping the Scope:

- Once the alignment is confirmed, you may proceed with lapping the scope.
- Use the alignment tool to doublecheck that the scope tube is properly aligned before final tightening.

4. PostUse Care:

- After use, carefully remove the tool from the scope rings.
- Clean the tool with a soft cloth to remove any debris or residue.
- Store the tool in a safe, dry location away from children.

Disposal Instructions

- Dispose of the product responsibly, following local regulations for waste disposal.
- Do not dispose of the product in household waste. Check for recycling options or designated disposal sites.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact details provided separately. Always ensure you have the product information ready when reaching out for assistance.

Thank you for prioritizing safety while using the SINCLAIR Scope Alignment Tool. Your adherence to these guidelines helps ensure a safe and effective experience.
