

ULTRA™ MICROMETER SEATER DIES - 30-30 WINCHESTER

MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

ULTRA™ MICROMETER SEATER DIES 3030

WINCHESTER Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES 3030 WINCHESTER. This product is designed for precision reloading and provides the ability to create concentric rounds consistently. To ensure safe and effective use, please read and follow the safety guidelines and instructions in this manual.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that your workspace is clean and free from distractions.
- Keep the reloading dies out of reach of children and unauthorized users.
- Use protective eyewear and gloves when operating reloading equipment.
- Be aware of your surroundings and ensure that no one is near you while reloading.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for your ammunition.
- Always doublecheck your measurements before reloading.
- Ensure that the micrometer adjustment is securely set before use.
- Avoid using the dies if they show signs of damage or excessive wear.
- Do not attempt to modify or repair the dies; contact the manufacturer for assistance.
- Use only compatible components with the ULTRA™ MICROMETER SEATER DIES.

Instructions for Installation and Usage

1. Installation of the Die:

- Ensure your reloading press is securely mounted and stable.
- Insert the ULTRA™ MICROMETER SEATER DIE into the press according to the manufacturer's instructions.
- Tighten the die using the Forster Cross Bolt Die Locking Ring for secure positioning.

2. Adjusting the Micrometer:

- To adjust the bullet seating depth, turn the micrometer knob clockwise to increase depth and counterclockwise to decrease depth.
- Make adjustments in increments of .0005 inch to .001 inch for precision.

3. Reloading Process:

- Start by verifying that all components are clean and free from debris.
- Place a case in the shell holder and ensure it is properly aligned.
- Insert a bullet into the case mouth and lower the ram to seat the bullet.
- Check the bullet seating depth after each round to ensure consistency.

4. PostUse Care:

- Clean the die after use to remove any residue or debris.

- Store the dies in a safe, dry place where they are protected from damage.

Disposal Instructions

- Dispose of any damaged or unusable reloading dies in accordance with local regulations.
- Do not throw away the dies in regular household waste; check for recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please contact the manufacturer directly through their official communication channels. Ensure you have the product details available for reference.

Thank you for prioritizing safety while using the ULTRA™ MICROMETER SEATER DIES 3030 WINCHESTER. Your diligence helps ensure a safe reloading experience.
