

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

25-06 REMINGTON MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 25-06 REMINGTON MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before use to familiarize yourself with the safety precautions and operational guidelines.

General Safety Guidelines

- Always handle reloading dies and components with care to prevent accidents.
- Ensure that your workspace is clean and organized to minimize the risk of injury.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Ensure that the ULTRA™ MICROMETER SEATER DIES is compatible with your reloading equipment before use.
- Do not exceed the recommended load limits for your reloading dies.
- Always doublecheck your measurements and settings before commencing the reloading process.
- Avoid distractions while using the reloading dies to maintain focus and accuracy.
- Store all reloading components in a secure and dry location to prevent degradation and accidents.
- If you experience any issues during use, cease operation immediately and consult the manufacturer or a qualified professional.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable before installing the die.
- Follow the manufacturer's guidelines to install the ULTRA™ MICROMETER SEATER DIES into your reloading press.
- Tighten the Forster Cross Bolt Die Locking Ring securely to prevent movement during use.

2. Usage:

- Adjust the micrometer setting to your desired bullet seating depth, ranging from .0005 inch to .001 inch increments.
- Insert the bullet into the die and ensure it is properly aligned.
- Apply steady pressure to the press handle to seat the bullet to the specified depth.
- After each adjustment, verify the seating depth using a caliper to ensure accuracy.
- Record your settings for future reference to streamline the reloading process.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not dispose of reloading components in regular household waste.
- Contact your local waste management facility for safe disposal options for hazardous materials.

Contact Information for Further Support

For safety inquiries or additional support regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the manufacturer's official website or customer service for assistance.

By following these safety instructions, you can ensure a safe and successful reloading experience with your ULTRA™ MICROMETER SEATER DIES. Thank you for your attention to these important guidelines.
