

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 338 WINCHESTER MAGNUM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 338 WINCHESTER MAGNUM MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749006844

# ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these guidelines carefully to promote safe practices and minimize risks associated with reloading ammunition.

## General Safety Guidelines

- Always handle reloading equipment with care and ensure you are in a safe environment.
- Ensure that you are familiar with the operation of your reloading equipment before use.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, in a secure location away from children and unauthorized individuals.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, when reloading.
- Always consult your firearm's manual to ensure compatibility with the reloaded ammunition.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:** Be aware of the potential hazards associated with reloading, including:
  - Improperly seated bullets which can lead to misfires or unsafe pressure levels.
  - Exposure to lead and other hazardous materials.
  - Risk of injury from sharp tools or equipment.
- **Avoiding Hazards:**
  - Always doublecheck bullet seating depth before finalizing any rounds.
  - Do not modify or alter the dies, as this can lead to unsafe conditions.
  - Ensure that the micrometer adjustment is securely locked before use.
- **Age Specific Warnings:** This product is not intended for use by individuals under the age of 18. Ensure that minors are supervised by adults when in the vicinity of reloading activities.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Attach the ULTRA™ MICROMETER SEATER DIE to the reloading press according to the manufacturer's instructions.
- Use the Forster Cross Bolt Die Locking Ring to secure the die in place.

### 2. Usage:

- Adjust the micrometer for bullet seating depth by turning the adjustment knob clockwise to increase depth and counterclockwise to decrease depth.
- Start with a small increment (e.g., .0005 inch) for finetuning.
- After making adjustments, always check the seating depth with a caliper to ensure accuracy.
- Maintain a consistent reloading process to ensure uniformity in ammunition quality.

## Disposal Instructions

- Dispose of any unused or damaged reloading materials in accordance with local regulations.
- Do not throw away hazardous materials, such as spent primers or lead components, in regular trash.
- Contact local waste management authorities for guidance on proper disposal methods for hazardous materials.

## Contact Information for Further Support

For any inquiries regarding safety or product performance, please consult your local dealer or refer to the manufacturer's official website for contact details.

By following these safety instructions, you can ensure a safe and productive reloading experience with your ULTRA™ MICROMETER SEATER DIES. Thank you for prioritizing safety in your reloading practices.
