

COMPETITION HANDGUN BULLET SEATER DIES - REDDING

COMPETITION SEATER DIE .500 S&W MAG

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These seater dies have a precision fitting bullet seating stem which is spring loaded. As the bullet and case move up into the seater positive alignment is insured. The micrometer adjustment on the seating stem simplifies setting and recording bullet seating depth. The micrometer is calibrated in .001 inch increments, is infinitely adjustable, and has a zero set feature. This seater has no crimping features. Crimping should be done with a separate Redding Profile Crimp or Taper Crimp die. The Competition seating die for the handgun and straight wall cases is compatible with most progressive reloading presses.

Safety Instruction Guide for Redding Competition Handgun Bullet Seater Die .500 S&W MAG

Introduction

Thank you for choosing the Redding Competition Handgun Bullet Seater Die .500 S&W MAG. This product is designed to enhance your reloading experience while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Keep the workspace clean and organized to avoid accidents.
- Store the die and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Do not use the die for any purpose other than its intended use.

Specific Safety Precautions for Use

- Use only the compatible cartridges specified for this die: .500 S&W.
- Ensure that the reloading press you are using is compatible with this bullet seater die.
- Avoid overseating the bullet, as this can lead to dangerous pressures when firing.
- Be aware of the potential for lead exposure when handling bullets and cases; practice good hygiene and wash hands after use.
- Do not attempt to modify the die or its components in any way.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the Redding Competition Handgun Bullet Seater Die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during use.

2. Usage:

- Adjust the micrometer seating stem to the desired bullet seating depth in .001 inch increments.
- Place the cartridge case into the shell holder of the reloading press.
- Insert the bullet into the case mouth and raise the ram to seat the bullet.
- Ensure that the bullet is seated to the desired depth and that the case is properly aligned.
- After seating, lower the ram and remove the completed cartridge.

3. Crimping:

- This die does not have crimping features. Use a separate Redding Profile Crimp or Taper Crimp die to apply crimping as needed.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations for hazardous waste.
- Ensure that all materials used in the reloading process are disposed of safely to prevent environmental

contamination.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Redding Competition Handgun Bullet Seater Die .500 S&W MAG, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience. Thank you for choosing Redding products.
