

PRO-SERIES CARBIDE + G1298 DIE SETS - REDDING 380 AUTO CARBIDE 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

For those of you who want the best in pistol dies consider a Redding Titanium Carbide Set. Titanium Carbide has the highest hardness of any readily available carbide and provides a slick, non-galling surface. The price is a little higher but no lubrication is needed and your cases will glide through the sizing die. Pro Series Pistol Die Sets are designed for use in progressive reloading machines. The expander die is eliminated from the set and a separate crimp die is substituted. The set includes a carbide sizing die, bullet seater (no crimp type), and a separate crimp die. Please note: These dies are specifically designed for progressive machines that expand the case mouth at the powder metering station so no expander die is included with this die set.

PROSERIES CARBIDE + G1298 DIE SETS REDDING 380 AUTO CARBIDE 3DIE SET

Safety Instruction Guide

Introduction

Thank you for choosing the PROSERIES CARBIDE + G1298 DIE SETS REDDING 380 AUTO CARBIDE 3DIE SET. This guide provides essential safety information to ensure the safe and effective use of your die set. Please read this manual carefully before using the product.

General Safety Guidelines

To promote safe usage of the PROSERIES CARBIDE + G1298 DIE SETS, please adhere to the following guidelines:

- Ensure that the die set is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before use.
- Follow all manufacturer instructions and guidelines for safe operation.

Specific Safety Precautions for Use

When using the PROSERIES CARBIDE + G1298 DIE SETS, consider the following safety precautions:

- **Hazard Identification:** Be aware of potential hazards, including:
 - Improper handling of ammunition components.
 - Risk of injury from moving parts during operation.
 - Exposure to lead or other hazardous materials.
- **Avoiding Hazards:** To minimize risks:
 - Do not exceed the recommended load specifications for your ammunition.
 - Ensure that your workspace is clean and free from obstructions.
 - Use the dies only with compatible reloading equipment.
- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure that minors do not have access to the die set or any associated components.

Instructions for Installation and Usage

Follow these instructions for the proper installation and usage of the die set:

1. Installation:

- Secure the die set in your reloading press according to the manufacturer's instructions.
- Ensure that the carbide sizing die is properly adjusted for your specific cartridge.

2. Usage:

- Use the carbide sizing die to resize your brass cases.
- Insert the bullet seater die to seat bullets without crimping.
- Use the separate crimp die to apply a crimp if necessary, ensuring that it is adjusted correctly.

- Regularly clean the dies to maintain optimal performance and prevent corrosion.

3. Safety Checks:

- Before reloading, doublecheck that all components are in good condition and free from debris.
- Confirm that the powder metering system is functioning correctly and that no powder spills are present.

Disposal Instructions

When disposing of the PROSERIES CARBIDE + G1298 DIE SETS or any reloading components:

- Follow local regulations for the disposal of hazardous materials.
- Do not dispose of used cartridges or components in regular trash.
- Consider recycling options for metal components where applicable.

Contact Information for Further Support

For any inquiries regarding safety, usage, or support related to the PROSERIES CARBIDE + G1298 DIE SETS, please refer to the contact information provided by the manufacturer.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the PROSERIES CARBIDE + G1298 DIE SETS REDDING 380 AUTO CARBIDE 3DIE SET. Always prioritize safety and refer to this guide whenever you use your die set. Thank you for your attention to these important safety measures.
