

COMPETITION BUSHING NECK DIES - REDDING COMPETITION BUSHING NECK DIE 7MM-08 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: [REDDING COMPETITION BUSHING NECK DIE 7MM-08 REM](#)
- Manufacturer: [REDDING](#)
- Product no.: 749007426
- Mfr. No.: 56139

Safety Instruction Guide for Redding Competition Bushing Neck Die 7mm08 Rem

Introduction

Thank you for choosing the Redding Competition Bushing Neck Die 7mm08 Rem. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose as specified in this manual.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications provided by the manufacturer.
- Ensure that the cartridge case is fully supported in the die before beginning the resizing process.
- Avoid placing fingers or other body parts near moving parts of the die during operation.
- Always ensure the die is securely attached to the reloading press before use.
- If any unusual noises or resistance occur during operation, stop immediately and inspect the die for issues.
- Be aware of the potential for lead exposure when handling ammunition components. Wash hands thoroughly after use.

Instructions for Installation and Usage

1. Installation:

- Select a suitable reloading press compatible with the Redding Competition Bushing Neck Die.
- Securely mount the die into the press according to the manufacturer's instructions.
- Adjust the die to the desired position for resizing the cartridge case.

2. Usage:

- Prepare the cartridge cases by cleaning and inspecting them for defects.
- Insert the cartridge case into the die, ensuring it is properly aligned and fully supported.
- Begin the resizing process by operating the reloading press in a smooth and controlled manner.
- Monitor the resizing process closely, ensuring that the case neck is properly resized without overexpansion.
- After resizing, remove the cartridge case from the die and inspect it for quality.

Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Recycle materials where possible, following local recycling guidelines.
- Do not dispose of ammunition components in regular household waste.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Redding Competition Bushing Neck Die, please refer to the manufacturer's contact information provided in the product packaging or on their official website.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
