

# COMPETITION BUSHING NECK DIE SETS - 280 REMINGTON BUSHING NECK DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Redding Competition Bushing Neck Die Set includes a Competition Bushing Neck Sizing Die, a Body Die, and a Competition Bullet Seater. Neck Sizing Die and Seater feature micrometer adjustments. Bushings and Shellholder sold separately. Competition Bushing Neck Die - With this die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. Body Die -designed to full length resize the case body and bump the shoulder position for proper chambering without disturbing the case neck. Competition Bullet Seater - Tighter manufacturing tolerances have been made possible due to the details of the floating seating stem system. The bullet guide to seating stem fit is so precise that the seating stem can actually be demonstrated to "float"

## Attributes

# Safety Instruction Guide for Redding Competition Bushing Neck Die Set

## Introduction

Thank you for choosing the Redding Competition Bushing Neck Die Set for your reloading needs. This product is designed to provide precision and reliability when resizing cartridge cases. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure you are familiar with the basic principles of reloading ammunition.
- Always wear appropriate safety gear, such as safety glasses and gloves, when using reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store all reloading components, including dies and tools, out of reach of children.
- Follow all local laws and regulations regarding the reloading of ammunition.
- Regularly inspect your equipment for wear and damage. Replace any damaged components before use.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always read the manufacturer's instructions before using the die set.
- Ensure the die set is compatible with the 280 Remington cartridge.
- Use only recommended bushings and shellholders that are sold separately.
- Be cautious when adjusting the micrometer settings to avoid oversizing or damaging the cartridge case.
- Do not force the cartridge case into the die; ensure it is properly aligned and supported.
- Keep hands and other body parts clear of moving parts during operation.
- Ensure the reloading press is securely mounted to prevent tipping or movement during use.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Securely mount your reloading press to a stable work surface.
- Insert the Competition Bushing Neck Sizing Die into the press and tighten it according to the manufacturer's instructions.
- Attach the Body Die to the press using the same method.
- Insert the Competition Bullet Seater into the press, ensuring it is properly secured.

### 2. Using the Competition Bushing Neck Sizing Die:

- Select the appropriate bushing for your desired neck size.
- Adjust the micrometer to the desired neck length.
- Place the cartridge case into the die, ensuring it is supported and aligned.
- Operate the press to resize the case, allowing the bushing to selfcenter on the neck.
- Remove the resized case and inspect it for proper sizing.

### 3. Using the Body Die:

- Insert the cartridge case into the Body Die.
- Operate the press to fulllength resize the case body and bump the shoulder position.
- Inspect the case to ensure proper resizing without disturbing the neck.

#### **4. Using the Competition Bullet Seater:**

- Place the bullet into the cartridge case.
- Adjust the seating depth using the micrometer on the seating stem.
- Operate the press to seat the bullet into the case.
- Inspect the completed cartridge for proper bullet seating.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away used cartridge cases with regular household waste; recycle them if possible.
- Ensure that all hazardous materials are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any questions or concerns regarding the Redding Competition Bushing Neck Die Set, please refer to the manufacturer's website or customer service resources for assistance.
