

MEC POWDER BUSHINGS - MEC RELOADING #13 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safety while using this product. Please read this guide carefully before using the MEC Powder Bushing #13.

General Safety Guidelines

- Always ensure that the work area is clean and free of obstructions to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose, as specified in this guide.
- Regularly inspect the product for any signs of wear or damage before use.
- If you notice any defects, discontinue use immediately and contact the manufacturer for further guidance.
- Always follow local regulations for the safe handling and use of reloading components.

Specific Safety Precautions for Use

- Ensure you are using the correct bushing size for your specific powder load.
- Always use a scale to verify powder weights for accuracy; do not rely solely on the bushing.
- Avoid overfilling the bushing to prevent spills or misloads.
- Wear appropriate safety gear, including safety glasses and gloves, while handling powders and reloading materials.
- Do not use the powder bushing in a manner that is inconsistent with the manufacturer's instructions.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Remove any existing bushings from the press, if applicable.
- Insert the MEC Powder Bushing #13 into the designated slot of your reloading press, ensuring it is securely in place.
- Doublecheck that the bushing is properly seated before proceeding.

2. Usage:

- Measure the desired amount of powder using the bushing.
- Always weigh the powder on a reliable scale to ensure accuracy.
- After loading, check the bushing for any obstructions or residue that may affect future use.
- Clean the bushing regularly to maintain optimal performance.

Disposal Instructions

- Dispose of any used or damaged powder bushings according to local regulations for hazardous waste.
- Do not dispose of powder bushings in regular household waste.
- If you are unsure about disposal methods, contact your local waste management authority for guidance.

Contact Information for Further Support

For any safety inquiries or concerns regarding the MEC Powder Bushings, please refer to the manufacturer's

website or contact their customer support directly. They will provide you with the necessary information and assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with the MEC Powder Bushing #13. Thank you for your attention to these important guidelines.
