MEC Powder Bushings #21 Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings #21. This guide provides essential safety instructions and guidelines for the safe use, installation, and disposal of this product. Please read through this document carefully to ensure proper handling and safety.

General Safety Guidelines

- Always use the MEC Powder Bushings in accordance with the manufacturer's instructions.
- Ensure that the product is suitable for your specific reloading needs. Refer to the MEC website for compatibility information.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for any signs of wear or damage before use.
- In case of any doubts regarding the safety or usage of the product, consult with a qualified expert.

Specific Safety Precautions for Use

• Hazard Identification:

- Be aware of the potential risks associated with incorrect powder loading, which can lead to dangerous situations.
- Using an incorrect bushing may cause inconsistent powder charges, leading to malfunctions or accidents.

• Avoiding Hazards:

- Always use a scale to verify powder weights for accuracy.
- Do not exceed the recommended powder load for your specific bushing.
- Ensure that your workspace is clean and free from distractions while reloading.
- Wear appropriate safety equipment, such as safety glasses and gloves, when handling powders and reloading ammunition.

• Age Specific Warnings:

- This product is intended for use by adults only. It should not be used by individuals under the age of 18 without proper supervision.

Instructions for Installation and Usage

• Installation:

1. Ensure that your reloading press is turned off and unplugged before installation.
2. Remove the existing bushing from the reloading press.
3. Insert the MEC Powder Bushing #21 securely into the designated slot.
4. Confirm that the bushing is seated properly and locked in place.

• Usage:

1. Set your reloading press to the appropriate settings for your desired powder load.
2. Use a scale to measure the powder charge accurately.

3. After loading, doublecheck the weight of the powder to ensure it matches the desired charge.
4. Follow all safety protocols during the reloading process, including wearing safety gear.

Disposal Instructions

- Dispose of any damaged or wornout bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, contact your local waste management facility for proper disposal methods.
- Ensure that all residual powders are handled and disposed of safely, following the guidelines provided by your local authorities.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product recalls, please refer to the official MEC website or contact your local MEC dealer.

Thank you for prioritizing safety while using the MEC Powder Bushings #21. Your adherence to these guidelines helps ensure a safe reloading experience.
