

# HAND HELD OUTSIDE NECK TURNER PILOTS - FORSTER PRODUCTS, INC. 0.224" HAND HELD NECK TURNER PILOT

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

Forster's easy-to-use hand-held neck turning tool helps you take the next step toward cartridge-to-cartridge consistency. It features a carbide cutter with a micrometer-style adjustment knob for precise material removal to give cases consistent wall thickness that improves bullet-to-bore alignment. The aluminum holder retains the case firmly with a simple turn of the knob; holds up to .592" base diameter. Large case holder available for cases from .593" to .812" base diameter. Requires a pilot that's specific to the case mouth diameter; sold separately, see table below. Pilots are precision-ground .002" to .0025" smaller than the bullet diameter.

Hand Held Outside Neck Turner Pilot #224 .224 Diameter

## Attributes

- Name: [FORSTER PRODUCTS, INC. 0.224" HAND HELD NECK TURNER PILOT](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the Hand Held Outside Neck Turner Pilot #224 for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read all sections carefully before using the neck turner pilot.

### **General Safety Guidelines**

- Ensure that the product is used in accordance with the instructions provided in this guide.
- Always inspect the neck turner pilot before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in this manual.
- Report any unsafe products or accidents to local authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

### **Specific Safety Precautions for Use**

- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the neck turner pilot.
- Ensure that the work area is clean and free from obstructions to prevent accidents.
- Do not exceed the recommended diameter specifications when using the neck turner pilot.
- Avoid placing hands or fingers near the cutting area when the tool is in use.
- Always turn the tool off and disconnect it from any power source when not in use or when changing settings.

### **Instructions for Installation and Usage**

#### **1. Preparation:**

- Gather all necessary materials, including the neck turner pilot, a suitable power source (if applicable), and safety equipment.
- Ensure that the work surface is stable and secure.

#### **2. Installation:**

- Attach the neck turner pilot securely to the reloading tool or holder according to the manufacturer's specifications.
- Verify that all connections are tight and that there are no loose parts.

#### **3. Usage:**

- Position the case to be turned securely in the holder.
- Adjust the neck turner pilot to the appropriate diameter setting (0.224 inches for .224 caliber).
- Turn on the neck turner pilot and begin the turning process, applying steady pressure.
- Monitor the operation closely to ensure that everything is functioning as intended.
- Once finished, turn off the neck turner pilot and carefully remove the case.

## **Disposal Instructions**

- Dispose of the neck turner pilot in accordance with local regulations.
- If the product is no longer usable, consider recycling components where possible.
- Do not dispose of the product in general waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Hand Held Outside Neck Turner Pilot #224 or safety issues, please reach out to the designated support channels provided with your product packaging.

Please ensure that you follow these safety guidelines to maximize your safety and the effective use of the Hand Held Outside Neck Turner Pilot #224. Thank you for your attention to safety!
