

UNPRIMED 45 AUTO PISTOL BRASS - 45 AUTO BRASS 100/BOX

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

HORNADY UNPRIMED 45 AUTO PISTOL BRASS Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Safety Instruction Guide for UNPRIMED PISTOL BRASS 45 AUTO BRASS 100/BOX

Introduction

Thank you for choosing Hornady Unprimed Pistol Brass 45 Auto Brass. This product is designed for use in reloading ammunition and is manufactured to high standards for accuracy and performance. This guide provides essential safety instructions to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle brass and ammunition components with care.
- Store brass in a cool, dry place away from direct sunlight and moisture.
- Ensure that all reloading equipment is in good working condition and suitable for the specific cartridge.
- Follow all applicable laws and regulations regarding the reloading and use of ammunition.
- Keep this product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper handling may lead to injury or accidents.
- Using defective or damaged brass can result in dangerous malfunctions.
- Inhalation of brass dust or particles can be harmful.

- **Avoiding Hazards:**

- Inspect brass for defects before use. Do not use brass that is cracked, deformed, or shows signs of corrosion.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling brass.
- Ensure a wellventilated area when reloading to minimize exposure to dust and fumes.

- **AudienceSpecific Warnings:**

- This product is not intended for use by individuals under the age of 18.
- Ensure that inexperienced users are supervised by a knowledgeable adult when handling reloading materials.

Instructions for Installation and Usage

- **Preparation:**

- Gather all necessary reloading equipment and materials, including powder, primers, and projectiles.
- Read and understand the reloading manual specific to the 45 Auto cartridge before beginning.

- **Reloading Process:**

- Inspect each piece of brass before use. Look for signs of wear or damage.
- Clean the brass to remove any debris or contaminants.

- Follow the recommended reloading data for the 45 Auto cartridge, ensuring you use the correct powder type and charge weight.
- Seat the bullet to the proper depth as specified in the reloading manual.
- Ensure that the primer is seated correctly and securely in the primer pocket.

- **PostReloading:**

- Store reloaded ammunition in a safe and secure location.
- Label all reloaded ammunition with the date and load information for future reference.

Disposal Instructions

- Dispose of any damaged or unusable brass responsibly. Consult local regulations for proper disposal methods.
- Do not dispose of brass in regular household waste. Consider recycling options available in your area.
- Ensure that all reloading materials, including powders and primers, are disposed of according to safety regulations and local laws.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of Hornady Unprimed Pistol Brass, please contact your local Hornady representative or authorized dealer. Always refer to the manufacturer's website for the most up to date information and resources.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with Hornady Unprimed Pistol Brass 45 Auto Brass. Thank you for prioritizing safety in your reloading practices.
