CUSTOM GRADE HANDGUN 3DIE SETS 40 S&W/10MM AUTO NITRIDE 3DIE SET Safety Instructions

Introduction

Thank you for choosing the Hornady CUSTOM GRADE HANDGUN 3DIE SETS for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and understand these guidelines before using the die set.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep the reloading area clean and organized to prevent accidents.
- Store all reloading components, including dies, primers, and powder, in a secure location out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that no one is in the immediate vicinity while you are reloading.
- Never consume alcohol or drugs before or during the reloading process.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Ensure that you are using the correct die set for the specific cartridge you are reloading, which in this case includes 10 mm Auto and 40 S&W.
- Inspect the die set for any damage or defects before use. Do not use if any parts are worn or broken.
- Use only the recommended reloading data for the specific cartridge. Refer to reputable reloading manuals for guidance.
- Do not exceed maximum load limits as specified in reloading manuals.
- Always doublecheck the powder charge before seating the bullet to prevent overcharging.
- Ensure that the bullet seating die is properly adjusted to avoid excessive crimping, which can lead to dangerous pressure levels.

Instructions for Installation and Usage

1. Setup of the Die Set:

- Secure the fulllength sizing die in the press.
- Adjust the die according to the manufacturer's instructions, ensuring that it is set to resize the cases properly.
- Install the adjustable case mouth expander die to ensure proper case mouth preparation.
- Finally, install the bullet seating die, adjusting it to the desired bullet seating depth.

2. Reloading Process:

- Begin by cleaning and inspecting your brass cases.
- Resize the cases using the fulllength sizing die.
- Expand the case mouth using the adjustable case mouth expander die.
- Measure and dispense the appropriate amount of powder into each case.
- Seat the bullets using the bullet seating die, ensuring they are seated to the proper depth.
- Crimp the bullets if necessary, using the crimping option available in the seating die.

3. PostReloading:

- Inspect each loaded round for any defects or irregularities.
- Store completed ammunition in a safe and secure manner.
- Clean the die set after use to prevent corrosion and ensure longevity.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Check with local authorities or waste management facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the contact information provided with your product. Always ensure that you have access to support when needed.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your Hornady CUSTOM GRADE HANDGUN 3DIE SETS. Remember that safety is paramount, and always stay informed about best practices in ammunition reloading. Thank you for your commitment to safety.
