

MEC POWDER BUSHINGS - MEC RELOADING #23 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings. This guide provides essential safety instructions to ensure the safe and effective use of your MEC Powder Bushing #23. Please read this document carefully to understand how to handle, install, and use the product safely.

General Safety Guidelines

- Always use the MEC Powder Bushing in accordance with the manufacturer's instructions.
- Ensure that the work area is clean and free from distractions while using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves, when handling powders.
- Regularly check for any signs of wear or damage to the bushing before use.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure the bushing is securely fitted to the reloading press before use to prevent accidents.
- Avoid exceeding the recommended powder load as specified in the MEC powder charts.
- Use a scale to verify powder weights for accuracy before loading ammunition.
- Do not mix different types of powders in the same bushing.
- Store powder and reload components in a cool, dry place away from direct sunlight and heat sources.
- In case of accidental spillage, follow proper cleanup procedures and dispose of materials responsibly.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is turned off and unplugged before installation.
- Remove any existing bushings from the press.
- Select the appropriate MEC Powder Bushing #23.
- Align the bushing with the press and securely fasten it according to the manufacturer's guidelines.
- Doublecheck that the bushing is firmly in place before proceeding.

2. Usage:

- Turn on the reloading press and prepare your materials.
- Measure the desired amount of powder using a scale.
- Pour the powder into the bushing carefully to avoid spillage.
- Follow the MEC powder charts to determine the starting point for your specific powder.
- Proceed with the reloading process as per your standard operating procedures.

Disposal Instructions

- Dispose of any unused powders and materials according to local regulations.
- Do not dispose of powders in regular waste. Check with local authorities for proper disposal methods.
- Ensure all components of the bushing are recycled or disposed of in an environmentally friendly manner.

Contact Information for Further Support

For further assistance or inquiries regarding safety and usage, please contact the manufacturer or check the official MEC website.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your MEC Powder Bushing #23. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
