

# MEC POWDER BUSHINGS - MEC RELOADING #24 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Powder Bushings, specifically the MEC Reloading #24 Powder Bushing. This guide provides essential safety instructions and guidelines for the safe use of this product. Please read this document carefully to ensure a safe and effective reloading experience.

## General Safety Guidelines

- Always keep the powder bushings out of reach of children and vulnerable individuals.
- Ensure that your reloading area is clean and wellventilated.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while handling powder and reloading materials.
- Store powder bushings in a dry, cool place away from direct sunlight and heat sources.
- Regularly inspect your powder bushings for any signs of damage or wear. Do not use damaged bushings.
- Follow all local laws and regulations regarding the storage and use of reloading equipment and materials.

## Specific Safety Precautions for Use

- Ensure that you are familiar with the reloading process and the specific requirements of the powder you are using.
- Always doublecheck the powder weight using a reliable scale before loading your rounds.
- Do not exceed the recommended powder load for your specific bushing.
- Avoid mixing different types of powders or using powders that are not compatible with your reloading setup.
- If you notice any unusual signs during the reloading process (e.g., excessive smoke, unusual noise), stop immediately and investigate the issue.
- Keep a fire extinguisher rated for chemical fires in your reloading area.

## Instructions for Installation and Usage

1. **Preparation:** Ensure your workspace is clean and organized. Gather all necessary tools and materials, including your MEC Powder Bushing, scale, and powder.
2. **Selecting the Bushing:** Choose the appropriate MEC Powder Bushing based on the desired powder load. Refer to the MEC website for powder charts and recommendations.
3. **Installation:**
  - Remove any existing bushing from your reloading press.
  - Insert the MEC Powder Bushing securely into the designated slot of your reloading press.
  - Ensure the bushing is properly seated and locked in place according to the manufacturer's instructions.
4. **Measuring Powder:**
  - Place your scale on a flat, stable surface.
  - Tare the scale to zero before adding powder.
  - Pour the powder into the bushing, ensuring not to exceed the recommended load.
  - Use a funnel if necessary to avoid spills.
5. **Loading Rounds:**
  - Carefully dispense the powder into your cartridge cases.
  - Follow your reloading manual for the specific steps to complete the loading process.
6. **PostUse Care:**
  - Clean the bushing after use to prevent powder residue buildup.
  - Store the bushing in a safe and dry location.

## **Disposal Instructions**

- Dispose of any unused or expired powders in accordance with local regulations. Do not simply throw them in the trash.
- Recycle packaging materials when possible.
- For damaged or unusable bushings, consult local waste management guidelines for proper disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the MEC Powder Bushings, please refer to the MEC website or your point of purchase for additional support and information.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your MEC Powder Bushings. Thank you for prioritizing safety in your reloading practices.
