MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushing #28. This product is designed to help you achieve precise powder loads for your reloading needs. It is essential to follow safety guidelines to ensure safe and effective use. This guide provides important safety instructions and information to help you use this product responsibly.

General Safety Guidelines

- Always handle powder bushings with care to avoid spills and accidents.
- Use a scale to check powder weights for accuracy before loading.
- Store powder bushings in a cool, dry place away from direct sunlight.
- Keep powder bushings out of reach of children and vulnerable individuals.
- Regularly check for any wear or damage to the bushing before use.
- Dispose of any damaged products properly and do not attempt to use them.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the reloading press is stable and secure before attaching the powder bushing.
- Avoid overfilling the powder bushing to prevent spills during operation.
- Always follow the manufacturer's instructions when using the reloading press and powder bushing.
- Do not use the powder bushing with powders that are not compatible with your reloading system.
- Wear appropriate safety gear, such as safety glasses and gloves, while reloading.
- Be mindful of your surroundings and ensure you are in a wellventilated area when handling powder.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged.
- Carefully remove any existing bushings from the press.
- Align the MEC Powder Bushing #28 with the designated slot on the reloading press.
- Securely fasten the bushing in place according to the press's instructions.

2. Usage:

- Before loading, check the powder bushing for any signs of damage or wear.
- Measure the desired amount of powder using a scale for accuracy.
- Load the powder into the bushing and proceed with the reloading process as per your reloading press instructions.
- After use, clean the powder bushing to prevent residue buildup.

Disposal Instructions

- Dispose of any damaged or worn powder bushings in accordance with local regulations.
- Do not throw powder bushings in regular household waste; check for proper recycling options.
- If the product is no longer needed, consider contacting local reloading clubs or organizations for proper disposal or recycling methods.

Contact Information for Further Support

For any questions or concerns regarding the MEC Powder Bushing #28, please refer to the MEC website or contact an authorized dealer for assistance. It is important to have access to reliable information regarding product safety and usage.

By following these guidelines, you can ensure a safe and effective reloading experience with the MEC Powder Bushing #28. Thank you for prioritizing safety in your reloading practices.
