

LEAD .38 CALIBER (.358") LEAD ROUND NOSE HANDGUN BULLETS - LEAD 38 CALIBER (0.358") 158GR ROUND NOSE 300/BOX

[Reloading](#) > [Bullets](#) > [Pistol Bullets](#)

Hornady® lead pistol bullets are pre-lubricated and cold-swaged for total uniformity and balance. Hornady exclusive knurling system retains lubricant over the entire bearing surface to reduce leading in your barrel. For cowboy shooters, authenticity is a strict requirement. That's why they build Hornay's Cowboy™ bullets to SASS (Single Action Shooting Society) specifications while holding them to the same stringent production standards as all Hornady's products. FEATURES Classic & Conventional design - Traditional conical and flat designs have perfect symmetry when combined with knurling at the base of the bullet, which deliver increased stability and accuracy. This ensures proper positioning in authentic revolvers, with no unwanted nicking of primers as the cylinder turns. Special Knurling and Grease Ring - The knurling system holds an even distribution of lubricating wax over the bearing surface of the Cowboy™ bullet, resulting in less leading.

Attributes

- Name: [LEAD 38 CALIBER \(0.358"\) 158GR ROUND NOSE 300/BOX](#)

Safety Instruction Guide for LEAD .38 CALIBER (.358") LEAD ROUND NOSE HANDGUN BULLETS

Introduction

Thank you for choosing Hornady® Lead .38 Caliber (.358") Lead Round Nose Handgun Bullets. This guide provides essential safety instructions to ensure the proper and safe use of this product. Please read and follow these guidelines carefully to minimize risks and ensure safe handling.

General Safety Guidelines

- Always treat all ammunition as if it is live and loaded.
- Store ammunition in a cool, dry place, away from direct sunlight and moisture.
- Keep ammunition out of reach of children and unauthorized users.
- Use only in firearms specifically designed for .38 caliber ammunition.
- Always wear appropriate safety gear, including eye and ear protection, when handling or firing firearms.
- Familiarize yourself with the firearm's manual and follow all manufacturer's safety instructions.

Specific Safety Precautions for Use

- Ensure your firearm is in good working condition before use.
- Inspect each bullet for damage before loading.
- Do not exceed the recommended load data for your firearm.
- Avoid using damaged or corroded ammunition.
- Be aware of your surroundings when firing; ensure a safe backstop is in place.
- Do not consume alcohol or drugs before or during the use of firearms.

Instructions for Installation and Usage

1. Loading the Bullets:

- Use gloves when handling bullets to avoid contamination.
- Carefully load the bullets into the appropriate casing, following the manufacturer's specifications.
- Ensure that the bullets are seated properly in the casing to avoid misfires.

2. Firing the Bullets:

- Always point the firearm in a safe direction when loading and unloading.
- Use the firearm only in a suitable shooting environment, such as a designated shooting range.
- Follow all local laws and regulations regarding firearm use.

3. PostUse Handling:

- After firing, allow the firearm to cool before cleaning.
- Clean the firearm according to the manufacturer's instructions to remove any residue.

Disposal Instructions

- Dispose of used or damaged ammunition according to local regulations.
- Do not throw ammunition in regular trash.
- Contact your local waste management authority for guidance on safe disposal options.

Contact Information for Further Support

For any safety inquiries or concerns, please refer to the contact information provided on the packaging or the manufacturer's website. It is important to have access to support for any questions related to product safety.

By following these guidelines, you can ensure a safer experience while using Hornady® Lead .38 Caliber (.358") Lead Round Nose Handgun Bullets. Always prioritize safety and responsibility when handling ammunition. Thank you for your attention to these important safety practices.
