

# MEC POWDER BUSHINGS - #29 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings #29 Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Powder Bushings #29. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document thoroughly before using the powder bushing.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to adjust powder loads in reloading applications.
- Always handle the powder bushing with care to avoid damage and ensure accurate measurements.
- Use a scale to verify powder weights for accuracy before loading ammunition.
- Keep all reloading components, including powder, in a secure location away from children and pets.
- Regularly check for updates on product recalls and safety alerts through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling powders and reloading equipment.
- Ensure that your work area is wellventilated to minimize inhalation of any dust or fumes.
- Do not exceed the recommended powder load limits for your specific bushing to prevent dangerous overpressures.
- Avoid using damaged or worn bushings, as they may lead to inaccurate powder measurements.
- Store powder bushings in a cool, dry place to prevent deterioration.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including your MEC powder bushing, scale, and reloading equipment.
- Ensure your workspace is clean and organized.

### 2. Installation:

- Insert the MEC Powder Bushing #29 into the appropriate reloading press according to the manufacturer's instructions.
- Secure the bushing firmly to prevent any movement during operation.

### 3. Usage:

- Measure the desired powder load using a scale to ensure accuracy.
- Adjust the powder bushing according to the volume specifications for the #29 size.
- Carefully dispense the powder into the reloading case, taking care to avoid spills.

### 4. PostUsage:

- Clean the bushing after each use to prevent powder residue buildup.
- Store the bushing in a safe location when not in use.

## **Disposal Instructions**

- Dispose of any unused or expired powder and reloading materials in accordance with local regulations.
- Do not dispose of powder bushings in regular household waste. Check for local recycling or hazardous waste disposal options.
- Ensure all materials are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For any inquiries or additional support regarding the MEC Powder Bushings #29, please refer to the official MEC website or your local dealer. It is recommended to keep this safety guide for future reference.

Thank you for prioritizing safety in your reloading practices. Enjoy a safe and successful reloading experience!
