

# MEC POWDER BUSHINGS - MEC RELOADING #30 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Powder Bushing #30. This product is designed to help you adjust the powder load for your rounds with precision. However, safety is paramount when using reloading equipment. This guide provides essential safety instructions to ensure safe and effective use of the MEC Powder Bushing.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions to avoid potential hazards.
- Always keep the powder bushing out of reach of children and vulnerable individuals.
- Regularly inspect the powder bushing for any signs of wear or damage before use.
- Use a scale to check powder weights for accuracy to ensure safe reloading practices.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling powder and reloading equipment.
- Avoid using the powder bushing in wet or damp conditions to prevent electrical hazards.
- Do not exceed the recommended powder load for your specific powder as indicated in the MEC charts.
- Ensure that the work area is wellventilated to avoid inhalation of any dust or fumes.
- Do not use the powder bushing if it has been modified in any way.
- Store the powder bushing in a cool, dry place when not in use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Locate the appropriate size of the powder bushing as indicated in the product specifications.
- Carefully insert the powder bushing into the designated slot of the reloading press until it is securely in place.
- Doublecheck that the bushing is properly seated to prevent any leaks during operation.

### 2. Usage:

- Before starting, calibrate your scale to ensure accurate measurements.
- Measure the desired amount of powder using the scale and fill the powder bushing.
- Adjust the bushing to the desired setting based on the powder load required for your rounds.
- After use, clean the powder bushing to prevent powder residue buildup.

## Disposal Instructions

- Dispose of any unused or expired powder according to local regulations for hazardous materials.
- The powder bushing can be recycled if it is made of recyclable materials. Check local recycling guidelines.
- Do not dispose of the powder bushing in regular household waste if it is damaged or contaminated.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the MEC Powder Bushing, please consult the MEC website or your local dealer for assistance. Ensure that you have the product information and any relevant details ready for a prompt response.

Thank you for your attention to these safety instructions. Your safety is our priority, and we wish you a successful and safe reloading experience with the MEC Powder Bushing #30.
