

MEC POWDER BUSHINGS - #33 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings #33 Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings #33. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document thoroughly before using the powder bushing.

General Safety Guidelines

- Ensure safe handling and usage of the MEC Powder Bushings to prevent accidents.
- Always use a scale to check powder weights for accuracy when adjusting powder loads.
- Keep the powder bushings out of reach of children and vulnerable individuals.
- Regularly check for any recalls or safety alerts related to this product on the EU Safety Gate platform.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended powder load for your rounds.
- Inspect the bushing for any signs of damage before each use. Do not use if damaged.
- Avoid using the powder bushing in wet or humid environments to prevent corrosion.
- Use appropriate personal protective equipment (PPE), such as gloves and safety glasses, when handling powders.
- Store the powder bushings in a cool, dry place away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is turned off and unplugged before installation.
- Remove the existing bushing from the reloading press.
- Carefully insert the MEC Powder Bushing #33 into the designated slot, ensuring it is securely in place.
- Reconnect and power on the reloading press.

2. Usage

- Set your scale to zero and place a container on it to measure the powder.
- Adjust the powder bushing to the desired setting based on the specific powder load you wish to use.
- Gradually dispense the powder into the container, ensuring the scale remains stable.
- Check the weight of the powder and adjust as necessary for accuracy.
- After use, clean the powder bushing to remove any residual powder.

Disposal Instructions

- Dispose of any unused or expired powder in accordance with local regulations.
- Do not dispose of powder bushings in regular household waste. Check for local recycling or hazardous waste disposal options.
- Follow all local guidelines for the safe disposal of reloading materials.

Contact Information for Further Support

For any inquiries or safety concerns regarding the MEC Powder Bushings #33, please consult the manufacturer's website or contact your local retailer for assistance.

By following these guidelines, you can ensure the safe use of the MEC Powder Bushings #33 and contribute to a safer reloading environment. Thank you for your attention to these important safety measures.
