

# MEC POWDER BUSHINGS - #34 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at [www.mecreloaders.com](http://www.mecreloaders.com)

# MEC Powder Bushings #34 Safety Instruction Guide

## Introduction

Thank you for choosing the MEC Powder Bushings #34. This guide provides essential safety instructions to ensure the safe use of this product. Please read the entire guide carefully before using the product.

## General Safety Guidelines

- Always use the MEC Powder Bushings in accordance with the manufacturer's instructions.
- Ensure that the bushing is compatible with your reloading press and the specific powder you are using.
- Check for any visible damage to the bushing before use. Do not use a damaged bushing.
- Keep the product out of reach of children and vulnerable individuals.
- Always store the bushings in a dry and safe place to prevent accidental damage or misuse.
- Regularly check for updates on safety recalls or alerts related to this product.

## Specific Safety Precautions for Use

- Use a scale to measure powder weights accurately. This is crucial for safe reloading practices.
- Ensure that the bushing is properly seated in the reloading press before use to prevent powder leakage.
- Avoid overloading the bushing beyond its rated capacity. Refer to the MEC website for guidance on recommended powder loads.
- Use protective eyewear when handling powders to protect against potential dust or splashes.
- Always work in a wellventilated area to minimize inhalation of powder particles.
- If you experience any adverse reactions or accidents while using the product, seek medical attention immediately.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is turned off and unplugged.
- Select the appropriate MEC powder bushing for your desired load.
- Insert the bushing into the designated slot of your reloading press until it is firmly seated.
- Doublecheck that the bushing is secure before proceeding.

### 2. Usage:

- Measure the desired amount of powder using a scale.
- Pour the powder into the bushing carefully to avoid spills.
- Follow the reloading press instructions for operating the machine with the installed bushing.
- After use, clean the bushing to remove any residual powder and store it properly.

## Disposal Instructions

- Dispose of any unused or expired powders according to local regulations.
- Do not dispose of bushings in household waste. Check with local recycling programs for proper disposal methods.
- If the bushing is damaged beyond use, dispose of it in a safe manner to prevent injury.

## **Contact Information for Further Support**

For any inquiries regarding the MEC Powder Bushings #34 or for reporting safety concerns, please refer to the MEC website or your local MEC distributor for assistance.
